MyCityMyBudget – Citizen engagement through workshops

Workshops (Citizen interaction sessions) were conducted at various citizen associations across Bengaluru to gather inputs from the citizens about the civic issues affecting them in their locality that should be addressed in the municipal budget for the year 2016-17. The workshops were moderated by IChangeMyCity (Janaagraha) and held at the offices of the respective citizens associations.

Discussion

The citizens at the workshop discuss about the civic issues that affects them in their locality

Submission of inputs

The citizens then shortlist and list down list of issues that should be included in the budget in the input form

Voting

In a voting session, all members of the association give their vote on the shortlisted issues that should be considered

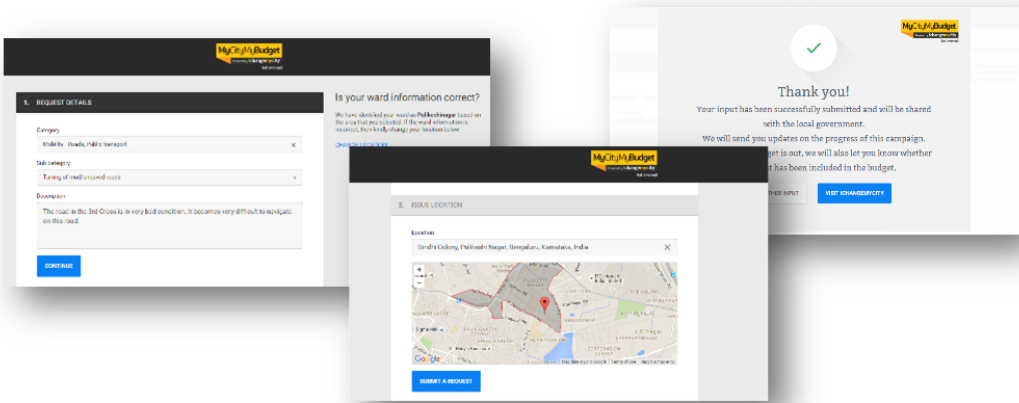

Prioritization

Based on the number of votes received, a final list is drawn which will contain the civic issues that needs to be addressed on priority

MyCityMyBudget – Citizen input collection on IChangeMyCity.com

The inputs from citizens were also collected online - on IChangeMyCity website (www.ichangemycity.com). The citizens were provided with an online form that enabled them to fill out inputs pertaining to their ward. They could also view the inputs shared by their neighbours in their ward and show support by VOTING UP on their inputs. Discussions about the civic issues to be considered also took place online on various social media sites.

1328	Solid waste management	Build dry waste collection centres	163, 7th Cross Rd, Islampur, Vimanapura, Bengaluru, Karnataka 560017, India	I appreciate the opportunity given to me, the area i live in is a slum and their is no waste management, unfortunately all the well educated people behave like slum-dwellers. All the garbage is dumped on the main road, including dead animals (cow, calf, dogs) as their is no collection mechanism (no garbage collection, no place to dump the waste in whole area, no attention is paid to clean the garbage), kindly look into the matter and help work out a mechanism.	Bruhat Bengaluru Mahanagara Palike	Saniyasnain Sharieff
1329	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	Annasandrapalya Main Rd, Basavanagar, Bangalore, K	Bad roads ,frequently dug and not tarred. No public transport available to cater to people to reach the main road.	Bruhat Bengaluru Mahanagara Palike	Nassar

3560	Solid waste management	Build dry waste collection centres	70, 1st Main Rd, Annandra Palya, Islampur, Vimanapura, Bengaluru, Karnataka 560017, India	Problem: Solid waste management should be the top priority for State bodies and BBMP in particular in Bangalore, also known as the "Garden City of India". There has hardly been any work done by the garbage collection officials to check if the present system in place is effective or not. Continuous follow up's are required and the neighbourhood needs to be educated about the problems caused by open garbage disposal and the risk of spread of life threatening diseases. One can find small heap of waste (dry and wet) every 500m lying around on the sides of the road with dogs, cows, birds and other animals feeding on them. Just imagine the quality of milk produced by these cows and the fate of people drinking it !	Bruhat Bengaluru Mahanagara Palike	Shivam Kashyap
3560	Solid waste management	Build dry waste collection centres	70, 1st Main Rd, Annandra Palya, Islampur, Vimanapura, Bengaluru, Karnataka 560017, India	Solution: Lets take a real life scenario. Location: Annasandrapalya 1st Main Road No of houses: 250 - 300 Average daily production of waste/home: 800 gm Total daily waste produced: 240 kg (approx.) A plastic container with a volume of 300 kg which has two separate sections for solid and wet waste can be installed in a suitable location in every cross or at least at multiple points where density of houses are more. The BBMP garbage truck can be sent daily during the early morning hours and the wte collected.	Bruhat Bengaluru Mahanagara Palike	Shivam Kashyap
4456	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	Annasandrapalya, Bangalore, Karnataka, India	The road from Islampur Junction to Krishna Nagar Area, both sides Rain/Storm Water drains are filled garbage and debris. Proper Garbage Dumping Areas should be made and closed, so that people do not throw Garbage on corners of the Roads	Bruhat Bengaluru Mahanagara Palike	Subratiter
