432	Solid waste management	Require regular Door to door garbage collection	9th Cross Rd, Malleshwaram, Bengaluru, Karnataka 560003, India	This is a long standing complaint. garbage is thrown 24/7 in front of the apartment & this is causing lot of health problems .The whole area rots (because of the rain)This is mainly because of the illegal market who have occupied the footpaths completely.& even public throw garbage there since there is no proper door to door collection. I have been complaining regarding this but in vain. BBMP officials are not taking any stict action.I am a senior citizen & also majority of the people who live in this apartment.I am feeling helpless & need help to solve this grave danger to public health. 593	Solid waste management	Require regular Door to door garbage collection	9th Cross Rd, Malleshwaram, Bengaluru, Karnataka 560003, India	This is a long standing complaint .Because of the illegal market & complete occupation of foot paths near 9th cross malleshwaram there will always be garbage in front of our apartment (24/7) This is spreading lot of diseases & the whole area stinks of rotten vegetables thrown along with the garbage. When it rains it is horrible & the the whole waste spreads throughout the street There is no proper door to door collection.There are two most important things to be taken care of 1)vacating the steet vendors . 2)stopping people from throwing garbage there. people urinate over the garbage & sread all sorts of diseases & the whole environment is highly polluted.This needs immediate attention. 1532	Public health	Fogging and Pest control	Sampige Rd, Vyalikaval, Malleshwaram, Bengaluru, Karnataka 560003, India	Stray dog population is awe fully increasing. I am supposed to be a rabies expert having done some research on dog and human rabies, having been engaged in spreading awareness about this disease all over the country for the past 35 years. Just one accidental bite by any of these canine predators could open up a whole lot of misery as it happened to my co brother. This is sadly the story all over Bangalore. It is an insult to a global city to find stray dogs on street. I am willing to help any group to spread awareness and wake up the Government agency.	Bruhat Bengaluru Mahanagara Palike	N.L.Gangadhar
1708	Solid waste management	Require regular Door to door garbage collection	9th Cross Rd, Malleshwaram, Bengaluru, Karnataka 560003, India	Near 9th cross MALleswaram,where exists a row of transformers there is always a heap of garbage 24/7. 1)There is no proper door to door collection 2)vendors who have occupied the foot paths throw rotten fruits & vegetables 3)Even literate citizens throw waste since there is no strict action for the offence from BBMP when it rains the condition worsens .This requires immediate action to stop spreading of diseases, stop pollution & alsodamage to ground water. 4502	Mobility - Roads, Public transport	Provision for parking	15th Cross Rd, Malleshwaram, Bengaluru, Karnataka, India	Many food joints and temples are located close to the residential street and there is no parking facility for people visiting these places. so people tend to park in front of our houses especially in front of the garage. And this is leading to a lot of chaos in the residential area.	Bruhat Bengaluru Mahanagara Palike	VARSHINI MV
4516	Safety and Crime	Install surveillance cameras	11th Main Road, Near-Railway Station, Malleswaram, Bengaluru, Karnataka 560003, India	A lot of robbery (mostly chain snatching) is taking place at high rates in my area. The people of this area lack surveillance cameras on streets and police squad men at mnay roads. the citizens (especially old ladies) are scared to walk out of the house alone or leave the younger members of the family all alone at home. 5159	Mobility - Roads, Public transport	Provision for parking	Vasavi Temple Rd, Malleshwaram, Bengaluru, Karnataka 560003, India	Why not legislate compulsory parking on vacant sites to help de-congest our roads and footpaths. As Bangalore's vehicle ownership increases, we find BOTH sides of residential localities have parked cars thereby making it difficult to walk and drive through these localities. If vacant sites are made compulsory parking, these roads would become more free. The owner would be able to earn a few bucks but more important, the site would become garbage free and serve a useful purpose to the community for as long as its vacant. Typical 34x40 sites would easily accommodate 6 cars and several two wheelers.	Bruhat Bengaluru Mahanagara Palike	Ramesh Viswanath
