Most importantly flash the contact details of the agencies responsible for maintaining the above everywhere so that the citizens can contact them any time.	Bangalore Development Authority	C Beena
4443	Public health	Require new Primary health centre/ community health centre	Murugeshpalya, Nanja Reddy Colony, Jeevanbheemanagar, Bengaluru, Karnataka 560017, India	Instead of allocating land for temple, church or mosque, allocate land for health centres, public libraries, build compost units and generate biogas, play area for children or old age homes and manage it well that will help the residents of the area. Recently I saw an Om Shakti temple coming on the main road connecting old airport road and Jeevan bhima nagar. This is unwarranted for as there are already 4-5 temples on that stretch. Also because of this temple, residents on that lane cannot move around freely as the devotees are always behind you begging for alms or the fear of young devotees (men) misbehaving while standing in groups all around the clock . Elected representatives should work to raise the standard of living of the people in their areas and not work on giving land for religious causes and bring night mare for the residents.
