## MyCityMyBudget – Citizen engagement through workshops

Workshops (Citizen interaction sessions) were conducted at various citizen associations across Bengaluru to gather inputs from the citizens about the civic issues affecting them in their locality that should be addressed in the municipal budget for the year 2016-17. The workshops were moderated by IChangeMyCity (Janaagraha) and held at the offices of the respective citizens associations.

### Discussion

The citizens at the workshop discuss about the civic issues that affects them in their locality

### Submission of inputs

The citizens then shortlist and list down list of issues that should be included in the budget in the input form

### Voting

In a voting session, all members of the association give their vote on the shortlisted issues that should be considered

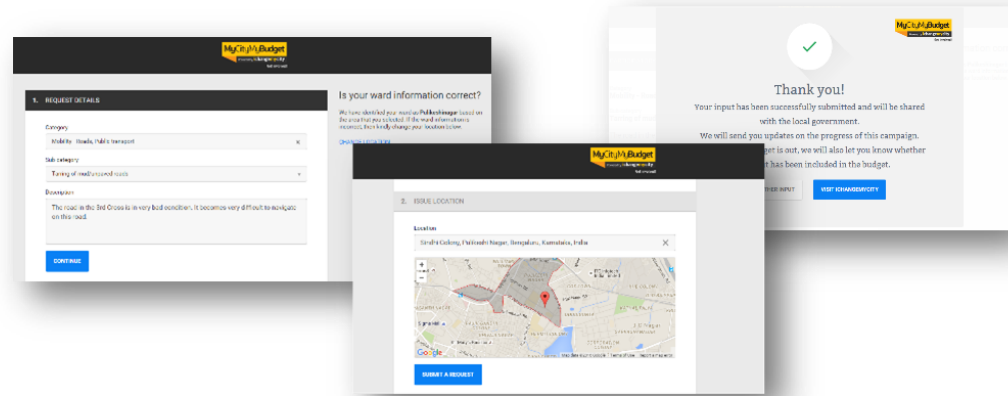

### Prioritization

Based on the number of votes received, a final list is drawn which will contain the civic issues that needs to be addressed on priority

## MyCityMyBudget – Citizen input collection on IChangeMyCity.com

The inputs from citizens were also collected online - on IChangeMyCity website ([www.ichangemycity.com](http://www.ichangemycity.com)). The citizens were provided with an online form that enabled them to fill out inputs pertaining to their ward. They could also view the inputs shared by their neighbours in their ward and show support by VOTING UP on their inputs. Discussions about the civic issues to be considered also took place online on various social media sites.

4701	Environment	Maintenance of saplings/trees	New Thippasandra Main Rd, Puttappa Colony, New Thippasandra, Bengaluru, Karnataka 560075, India	<p>2) Garbage collection system needs to be streamlined immediately. There are only checks and no balances for us common citizens from BBMP administration's point of view. Even garbage collection is not happening in a regulated manner.</p> <p>3) There is a lot of tree cutting happening to make way for commercial structures. Neither the local residents who are being requested to not cut trees are listening, nor government authorities who have sufficient teeth are interested in stopping these residents / shop owners from cutting trees.</p> <p>4) Water supply is good and needs to see cleanliness of water though. There is too much of contamination of water happening in our area nowadays.</p> <p>5) There is too much of FSI violation happening in our area, which may be disastrous in case of natural emergency. Concerned BBMP guys are simply turning a blind eye towards these violations.</p> <p>6) Local corporator is not seen in the scene at all. Instead it is her husband who is wielding the power for everything concerned in our area. It is a clear cut failure of having kept our ward reserved for ladies candidate.</p>	Bruhat Bengaluru Mahanagara Palike	Abhay Shankar Mulik
4731	Mobility - Roads, Public transport	Increase frequency of buses	New Tippiasandra, Bengaluru, Karnataka 560075, India	<p>allocation and immediate effective use of all available resources for other categories along with the one I've chosen above. I think, the areas of solid waste management, safety &amp; crime, environment are just as important as mobility of roads and public transport. Too many commercial establishments are coming up in Thippasandra and creating a huge nuisance in terms of traffic jam and high level of construction noise. One recent commercial building came up after destroying a vegetable market that was there for SEVERAL YEARS; More than 10 Years!!</p> <p>Irresponsible Parking of cars on narrow lanes, blocking the gates of houses is another increasing nuisance.</p> <p>Despite, being known as a well developed, well connected locality, Thippasandra-Kodiahalli-JeevanBimanagar are not having the desired level of frequency of buses.</p> <p>When it is known that from 7:30 AM to 9:00 AM are the peak, prime hours of travel for Students and Working people, increasing the frequency of buses is the next obvious step that Must be taken. Using public transport is the Only feasible , affordable and safe option for many people.</p> <p>Kindly Increase the number and the frequency of buses going towards Majestic, Shivajinagar and</p>	Bangalore Metropolitan Transport Corporation	Priya N M

3847	Sanitation	Desilting of Storm water Drains	Door # 863, 5th main, 5th cross	The storm water drain for the entire stretch of 5th main, 5th cross will not work unless the spot in this site is cleaned. The root cause of this problem is the tree which is blocking the drain. First the tree has to be removed. The drain to be repaired. A new tree saplings be planted near the same spot.	Bangalore Water Supply and Sewerage Board	Arun Ramaswamy
3848	Solid waste management	Require regular Door to door garbage collection	Garbage collection / 5th main, 5th cross	Garbage collection is not regular, not efficient and not timely also. Even when the resident is giving the garbage in segregation of wet and dry waste but the collection person is putting it both together in the collection bin. What is the use of segregation and the government says it is the responsibility of the residents and not the government.	Bruhat Bengaluru Mahanagara Palike	Arun Ramaswamy
3849	Electricity & Power	Repair of transformers/ electric poles	Site# 863, 5th main, 5th cross	The street light pole in this site is always a problem. In a year hardly 2 or 3 weeks it functions. When a complaint is lodged it gets fixed but very soon it blows up	Bangalore Electricity Supply Company	Arun Ramaswamy
3850	Public health	Fogging and Pest control	5th main 5th cross	Due to emerging of many restaurants in the 100 feet road, rat menace has increased. The restaurants are not maintaining their wastes and storage properly, the rats population has increased and it runs around the affected area. Big rats will be a big issue and can damage the ground and foundation of the buildings	Bruhat Bengaluru Mahanagara Palike	Arun Ramaswamy
3851	Solid waste management	Require regular Door to door garbage collection	5th cross, 5th main, 1st stage Indiranagar	It will be great if garbage is collected regularly and people are prohibited from dumping garbage on roadside, people usually dump garbage near temple which is a big problem. 266	Mobility - Roads, Public transport	Provision for parking	Indira Nagar II Stage, Hoysala Nagar, Bangalore, K	CMH Road and 100 feet roads have many commercial establishments that do not provide parking for their customers and staff and even if they do, it is not sufficient. Most if these vehicles are being parked in residential areas making it impossible for the residents to park their own vehicles or even peacefully walk around in the residential lanes without having to fear. The Indiranagar Metro station also does not have a parking space. It would be good if the space available in BDA Complex Indiranagar which is hardly 400 metres from the Metro station can be used for multi level vehicle parking space. Likewise, Swami Vivekananda Road metro station also needs a multi level parking space. There are spaces available on 80 feet road and Old Madras road in Indiranagar. Parking in residential areas should be banned completely.	Bruhat Bengaluru Mahanagara Palike	Praveen S

As Bangalore's vehicle ownership increases, we find BOTH sides of residential localities have parked cars thereby making it difficult to walk and drive through these localities. If vacant sites are made compulsory parking, these roads would become more free. The owner would be able to earn a few bucks but more important, the site would become garbage free and serve a useful purpose to the community for as long as its vacant. Typical 34x40 sites would easily accommodate 6 cars and several two wheelers.	Bruhat Bengaluru Mahanagara Palike	Ramesh Viswanath

1132	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	Kaggadasapura Main Rd, Kaggadasapura, Bangalore, Karnataka, India	The main kaggadasapura road is being used as a dumping and sorting yard with heaps of garbage literally in your face for students going to school, people going to work ,pathetic sight of cows eating plastic, dogs scavenging and flies and filth strewn around. I mean dont we have any consideration for our people exposing them to disease and filth day in and day out. This road was so well maintained and clean just a year ago and now bringing garbage on to the main road and footpath with thousands walking by every day. And this is next to the main storm water drain and you can see piles of thermocol ,plastic and such like dumped into the drain. We have a responsibility towards our future generations so they can grow up in a clean environment like we did. 2619	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	10/3, Embassy Golf Links Road, Embassy Golf Links Business Park, Domlur, Bengaluru, Karnataka 560071, India	<p>Links to Wind Tunnel Road (i.e. EGLRoad and Challaghatta Road) is in an utter state of disrepair. Thousands of automobiles as well as pedestrians use this narrow stretch everyday to get to/from their workplaces in EGL and as a throughfare to Inner Ring Road. The vehicle movement is terribly slow as the already narrow road has been reduced to half its effective width due to it's poor quality. Pedestrians at risk as they have to walk at the very edge of the road. Furthermore, this busy road has no streetlights and is even more of a safety hazard in the evenings. It is a health hazard all day long as so much dust is kicked up by passing traffic. Ironically, only a fence separates it from the posh and lush green golf course.</p> <p>I request whoever is responsible for this stretch to immediately pave the road for quick movement of vehicles as well as demarcate a footpath for safe passage of pedestrians.</p> <p>This road takes away a significant load of traffic from the congestion points at ISRO signal, Domlur flyover, and the U-turn on the Inner Ring Road.
