## MyCityMyBudget – Citizen engagement through workshops

Workshops (Citizen interaction sessions) were conducted at various citizen associations across Bengaluru to gather inputs from the citizens about the civic issues affecting them in their locality that should be addressed in the municipal budget for the year 2016-17. The workshops were moderated by IChangeMyCity (Janaagraha) and held at the offices of the respective citizens associations.

### Discussion

The citizens at the workshop discuss about the civic issues that affects them in their locality

### Submission of inputs

The citizens then shortlist and list down list of issues that should be included in the budget in the input form

### Voting

In a voting session, all members of the association give their vote on the shortlisted issues that should be considered

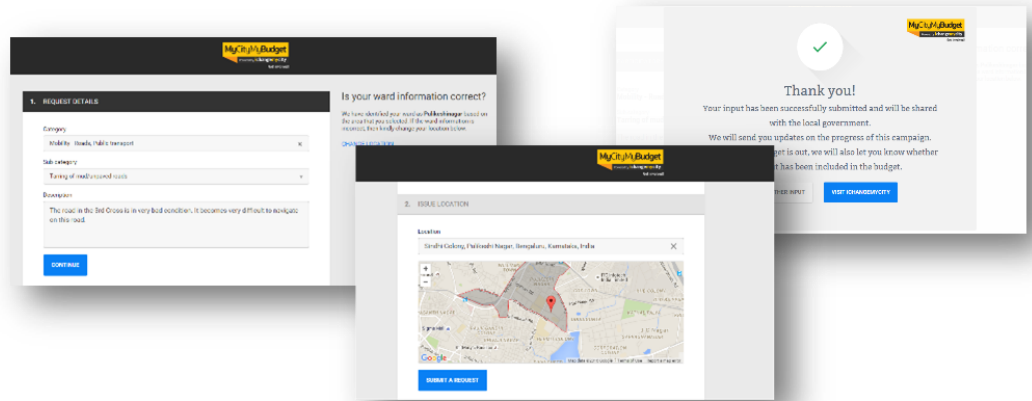

### Prioritization

Based on the number of votes received, a final list is drawn which will contain the civic issues that needs to be addressed on priority

## MyCityMyBudget – Citizen input collection on IChangeMyCity.com

The inputs from citizens were also collected online - on IChangeMyCity website ([www.ichangemycity.com](http://www.ichangemycity.com)). The citizens were provided with an online form that enabled them to fill out inputs pertaining to their ward. They could also view the inputs shared by their neighbours in their ward and show support by VOTING UP on their inputs. Discussions about the civic issues to be considered also took place online on various social media sites.

169	Mobility - Roads, Public transport	Construction of flyovers/ underpass	Bengaluru, Karnataka, India	Only permanent solution for city traffic is <a href="http://www.complexproblems.solutions/city-traffic">www.complexproblems.solutions/city-traffic</a> It works for 20 years without widening roads and works for 100 years by widening roads once.	Bangalore Development Authority	Sitaram Naik
301	Solid waste management	Require regular Door to door garbage collection	Bengaluru, Karnataka, India	The garbage collection is very irregular and this leads to piling up of garbage in homes. This can lead to spread of diseases. Also the garbage though segregated is not collected separately..it is mixed up and taken in the same place.	Bruhat Bengaluru Mahanagara Palike	Pallavi M P
425	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	Bowring Hospital Rd, Shivaji Nagar, Bangalore, Kar	please stop tender sure, instead focus on maintaining current level of roads and footpaths 365 days, 100% Bangalore and surroundings. Example go 1 km away from MG Road - Hulsur, Shivaji nagar, Cunnongham Road cross road - broken footpaths, pot holes,  please we want good quality but not at tender sure level, something for full city usability	Bruhat Bengaluru Mahanagara Palike	tushar
484	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	Bengaluru, Karnataka, India	Potholes clear roads eases the traffic jam on many places of bangalore.  All areas needs tarred roads...	Bruhat Bengaluru Mahanagara Palike	PRATHIBHA
522	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	Bangalore, Karnataka, India	I live in Kalhalli which is on the sarjapur Road, absolutely there is no road to commute. We have been highlighting this to the Panchayat team members. Almost there is about 10 New apartments in this area . Everyday its a nite mare for all of us. We need the government to take immediate action.	Bruhat Bengaluru Mahanagara Palike	Bryan Cruz
550	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	135, Field Marshal Cariappa Road, Ashok Nagar, Shanthala Nagar, Richmond Town, Bengaluru, Karnataka 560025, India	The road surface of the Richmond circle flyover is in pathetic condition for several years now and needs urgent attention. 736	Mobility - Roads, Public transport	Provision for parking	Bengaluru, Karnataka 560040, India	Haphazard parking on CHBS 18th Cross Road (Vijayanagar behind Main Water Tank near BDA complex) which is causing lot of inconvenience to pedestrians. Many vehicles drive in the opposite direction which makes it more difficult to walk on the road	Bruhat Bengaluru Mahanagara Palike	Vishant Shenoy K
955	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	Bengaluru, Karnataka, India	A lot of road space is lost to motorists as they negotiate potholes.	Bruhat Bengaluru Mahanagara Palike	Venkatesh
1116	Safety and Crime	Install surveillance cameras	Bangalore, Karnataka, India	Pls install cctv cameras through all roads with tie-up with local broadband providers for connectivity to monitor all roads.	Bruhat Bengaluru Mahanagara Palike	Sakhi Khatai
1261	Mobility - Roads, Public transport	Construction of flyovers/ underpass	135, Field Marshal Cariappa Road, Ashok Nagar, Shanthala Nagar, Richmond Town, Bengaluru, Karnataka 560025, India	The Richmond circle flyover is badly in need of a new tarred surface and permanent dividers appear broken in many places.	Bangalore Development Authority	Barboza
1416	Mobility - Roads, Public transport	Provision for parking	Bengaluru, Karnataka 560053, India	encroachment of roads and streets for parking of vechiles. There is an urgent need to find the solution for parking needs of the citizens. We need to have Specified bays for parking according to the need in each area managed by professional company. The vechile parking on the roads should be banned. The new construction of building should be strictly followed with parking provisions according to number of commercial establishment or resident flats. Let government provide more FSI to buildings which adhere the parking rule as incentive to start with the project. Further any land developer can make joint venture with the government to develop their land in multiple parking lots and charges to be fixed accordingly. You bring in more public transport connectivity by introducing smaller vechiles such as electric cars and scooters at all major street and roads including vechiles with women driver or chaffeur so that people use green mode of transportation and try to avoid using their own vechiles thus reducing pollution and also density on	Bruhat Bengaluru Mahanagara Palike	manoj mehta

1426	Safety and Crime	Install surveillance cameras	Bengaluru, Karnataka 560053, India	"prevention better then cure", lets follow on the same saying. Every street should have cameras at different locations in association with residents or commercial establishment . One camera to be installed facing the roads in buildings so that it can track any un towards incident and police can ask the camera footgae from the respective owners of the camera. It is on similar lines of neighbourhood policing and with the present tech world we can call as "neighbourhood eye" . Many citizens will come forward to install the cameras and government will not have to spend on its installation. But government can give incentive in forms of discounts in electric bill or property tax for establishment which have atleast one working camera installed covering the path of that road or street	Bruhat Bengaluru Mahanagara Palike	manoj mehta
2051	Solid waste management	Maintain cleanliness of streets ( sweeping, removal of debris)	Bengaluru, Karnataka 560061, India	roads are not at all good in condition, if it rains once gone and also garbage collection is not at all happening	Bruhat Bengaluru Mahanagara Palike	Srini Vasu
3581	Mobility - Roads, Public transport	Construction of flyovers/ underpass	Kamaraj Rd, Tasker Town, Shivaji Nagar, Bengaluru, Karnataka 560001, India	Many places has four turn. So we are waiting long time for signals. It is better to construct flyover or underpass to avoid waiting in signal	Bangalore Development Authority	Jeevan Antham D

3602	Sanitation	Construction of sewage lines	Bangalore, Karnataka, India	Sanitation is the need of the hour for Bangalore city.This city requires a good underground accessible sewer tunnels system and underground sewer treatment plants for better drainage and sewer management. The water after proper treatment can be used for irrigation purposes in Bangalore and nearby villages. No longer do we want overflowing drains during rains polluting this city and our citizens falling ill, no longer do we want broken or uncovered drains obstructing the path of a pedestrian on a footpath. This water	Bangalore Water Supply and Sewerage Board	Rishab Gupta
3610	Electricity & Power	Repair of transformers/ electric poles	Bangalore, Karnataka, India	World class global cities like Dubai and other big western cities have underground electricity distribution system where transformers, electricity poles and cables, telephone wires are all underground. This should be done is a big metropolitan city like Bangalore too. Undergrounding will help in protecting transformers, cables and poles from damage from environmental factors like rain and heavy winds which cause power cuts and disconnection of telephone lines. Transformers and poles are also an obstruction to pedestrians on footpaths. Having them underground will give space for better and wider footpaths. Often we hear about persons getting electrocuted by electricity cables falling or by transformers and also people might get hurt by transformers bursting. Having them underground will also improve public safety.I request concerned authorities to look into this matter with utmost concern and allocate a budget for this purpose. Lets make Bangalore a world class metropolitan city.	Bangalore Electricity Supply Company	Rishab Gupta

3663	Solid waste management	Require regular Door to door garbage collection	Bengaluru, Karnataka 560043, India	Living in Sri Laxmi Arcade, the BBMP comes once in 3 weeks or 40 days to collect Garbage from our apartments. WE have been strictly following Waste Segregations (wet and dry) but after a certain point, it gets piled up so much that it has been causing illness around our area. Please have the garbage disposed at the earliest so that we can have a healthy environment. We from our layout try to maintain cleanliness in our surroundings but our own apartments are filled with filth. We dont want to harm others by throwing the waste around. Please assist us. 3698	Sanitation	Construction of sewage lines	Bangalore, Karnataka, India	Bangalore city.This city requires a regularly well maintained underground accessible sewer tunnels system and underground sewer treatment plants for better sewer management. The water after proper treatment can be used for irrigation purposes in Bangalore and nearby villages. No longer do we want overflowing drains during rains polluting this city and our citizens falling ill, no longer we want open stagnant drains providing breeding ground for mosquitoes and other pests, no longer do we want broken or uncovered drains obstructing the path of a pedestrian on a footpath. The water from open drains and sewers flow into our lakes and pollute them too. We must get rid of obsolete and unsanitary open channels and drains sewer system in a fast growing city like Bangalore. Most global cities like Dubai and western cities have underground vacuum sewer tunnel system/ combined underground sewer system/ separate underground sewer system which are underground closed systems with no leakage and smells and do not pose any	Bangalore Water Supply and Sewerage Board	Rishab Gupta

3747	Environment	Cleaning and rejuvenation of lakes	Bangalore, Karnataka, India	better infrastructure in Bangalore. 6 lane roads and 8 lane roads where required, better footpaths which doesn't let motorists drive on it and it is only for pedestrians, underground sewer systems, underground electricity, better garbage management, street sweeping trucks all over Bangalore, street lamps and street light, Wi-Fi hotspots all over Bangalore, better road dividers, better signal lights, underpasses, tunnel roads, flyovers, metro all over Bangalore, more busses and make sure busses don't cause traffic jams so separate lanes for busses with enough space on the road for other vehicles, ban any vehicles more than 10 years old, more trees to tackle pollution, well maintained public toilets. All this must not only be done but after being done should be maintained very well. If bwssb, bbmp, bescom, bmtc, bda, could chair a meeting every month to coordinate with their development projects it would be better. As civic agencies of Bangalore they must work efficiently and effectively in coordination for development in Bangalore. Lets make	Bruhat Bengaluru Mahanagara Palike	Rishab Gupta

4446	Mobility - Roads, Public transport	Construction of flyovers/ underpass	Bengaluru, Karnataka 560087, India	Varthur to Forum value mall road need to be extended. Varthur population is doubling every month and now many big builders have started new constructions which will increase the population by 10 to 20 times and the current infrastructure does not help. everyday huge traffic jam causing lot of disruption to day to day life and in case any vehicle breakdown no way to recover.	Bangalore Development Authority	Trinadhha Rao
4487	Mobility - Roads, Public transport	Construction of new bus shelters	Bangalore, Karnataka, India	even tier 2 cities like Indore. It's high time that for a tier 1 metropolitan city like Bangalore BRTS is implemented. The Ahmedabad BRTS is best in india and we must beat them. In order to implement BRTS each road must be at least 4 lane , places where roads cannot be widened further underpasses and tunnel roads must be made for busses. For this encroachments must be cleared and roads widened. If the transformers and electricity and telephone poles are made underground then there will be more space for wide roads and wide footpaths. The roads and footpaths must not only be widened but regularly maintained too. The electricity poles can be replaced with European style street lamps for beautification of the city. The sewer system must be made an underground tunnel system with underground treatment plants just like in big foreign cities like Dubai or New York. The garbage disposal can also be made underground. All this must be done all over Bangalore. NOT JUST MY WARD. Please allocate budget for such infrastructure	Bruhat Bengaluru Mahanagara Palike	Rishab Gupta
