405	Solid waste management	Require regular Door to door garbage collection	Jogupalya	In Jogupalya, Halasuru, garbage is thrown recklessly everywhere hence a garbage collection 3/4 wheeler has to come door to door before 8am consistently & not later than this time because most of them go to work. Roads & footpaths have to be swept clean everyday. Drains have to be desilted between January & March & the slabs on the drains have to be properly installed. Clear all the streets of all vendors on pushcarts so that traffic moves smoothly. The mud/sand/dust which collects at the side of the roads have to be cleared weekly which will also take care of the dust problems. The manholes have to be in level of the roads & not protruding like it is all over Jogupalya & even other areas. Put a fence on the main storm water drain in Halasuru, have it cleaned at least once a year, stop people from throwing garbage & debris in it. Have CCTV cameras & someone should monitor it and fine the public heavily.	Bruhat Bengaluru Mahanagara Palike	Avinash
