MyCityMyBudget – Citizen engagement through workshops

Workshops (Citizen interaction sessions) were conducted at various citizen associations across Bengaluru to gather inputs from the citizens about the civic issues affecting them in their locality that should be addressed in the municipal budget for the year 2016-17. The workshops were moderated by IChangeMyCity (Janaagraha) and held at the offices of the respective citizens associations.

Discussion
The citizens at the workshop discuss about the civic issues that affects them in their locality

Submission of inputs
The citizens then shortlist and list down list of issues that should be included in the budget in the input form

Voting
In a voting session, all members of the association give their vote on the shortlisted issues that should be considered
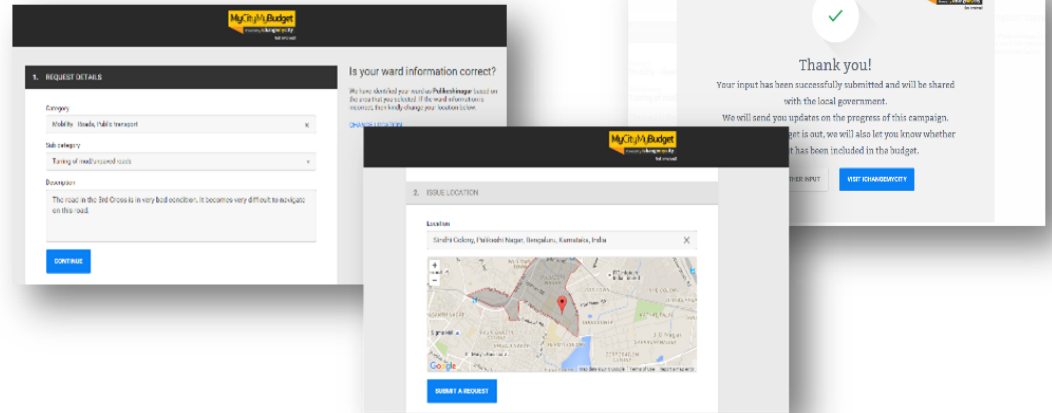

Prioritization
Based on the number of votes received, a final list is drawn which will contain the civic issues that needs to be addressed on priority

MyCityMyBudget – Citizen input collection on IChangeMyCity.com

The inputs from citizens were also collected online - on IChangeMyCity website (www.ichangemycity.com). The citizens were provided with an online form that enabled them to fill out inputs pertaining to their ward. They could also view the inputs shared by their neighbours in their ward and show support by VOTING UP on their inputs. Discussions about the civic issues to be considered also took place online on various social media sites.

Issue Id	Input Category	Input Sub Category	Location	Description	Agency	Citizen's name
1473	Solid waste management	Build dry waste collection centres	5th Block, Rajajinagar, Bengaluru, Karnataka 560010, India	Waste Management is pathetic, People are dumping the daily waste in a polythene cover bags and leave it where there is open space which is inhabited, Some even dump it at a corner or extreme side on the streets and this is not picked up or ignored as waste collectors feels its not in there scope, I think a waste bin should be provided and should be placed outside of every door step or in some common place where people can dump and later being collected by the garbage collectors. 1485	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	5th Block, Rajajinagar, Bengaluru, Karnataka 560010, India	i have seen and experienced many unpaved roads which have huge potholes and the local municipality does a shabby workaround, like closing this with mud and stones which initially looks like serving purpose but its broken with in few days and makes it more worse and risky for the two wheelers especially, The small stones gets scattered and is prone to skidding and accident, One more thing the municipality does is a patch up work they patch up only the effected area and due to which the road becomes uneven and it makes the two wheelers ride very risky as change in the level can cause a risk of falling down. Instead they should fully spread the asphalt on the entire road to make it evenly repaired.	Bruhat Bengaluru Mahanagara Palike	Nishant Mehta
