## MyCityMyBudget – Citizen engagement through workshops

Workshops (Citizen interaction sessions) were conducted at various citizen associations across Bengaluru to gather inputs from the citizens about the civic issues affecting them in their locality that should be addressed in the municipal budget for the year 2016-17. The workshops were moderated by IChangeMyCity (Janaagraha) and held at the offices of the respective citizens associations.

### Discussion

The citizens at the workshop discuss about the civic issues that affects them in their locality

### Submission of inputs

The citizens then shortlist and list down list of issues that should be included in the budget in the input form

### Voting

In a voting session, all members of the association give their vote on the shortlisted issues that should be considered

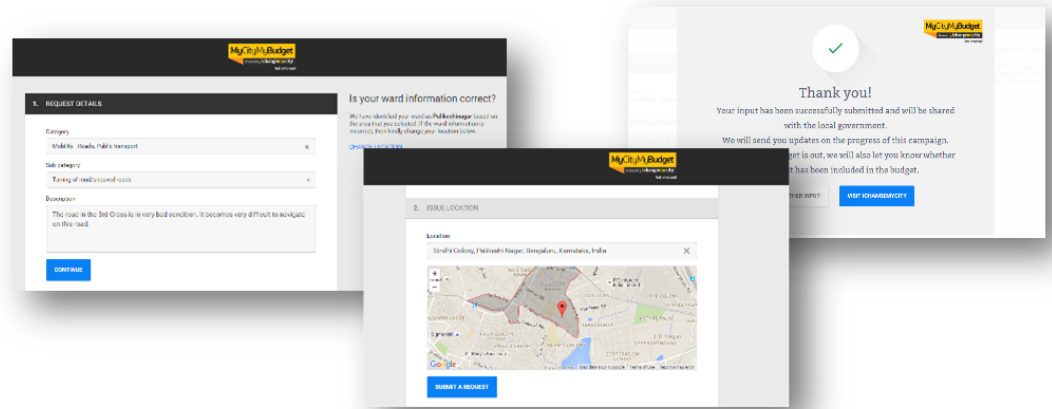

### Prioritization

Based on the number of votes received, a final list is drawn which will contain the civic issues that needs to be addressed on priority

## MyCityMyBudget – Citizen input collection on IChangeMyCity.com

The inputs from citizens were also collected online - on IChangeMyCity website ([www.ichangemycity.com](http://www.ichangemycity.com)). The citizens were provided with an online form that enabled them to fill out inputs pertaining to their ward. They could also view the inputs shared by their neighbours in their ward and show support by VOTING UP on their inputs. Discussions about the civic issues to be considered also took place online on various social media sites.

### Visit IChangeMyCity.com

Online citizen visits  
[www.ichangemycity.com/mycitymybudget](http://www.ichangemycity.com/mycitymybudget)  
and clicks on "Share Inputs"

### Submission of inputs

The citizens then list down list of issues that should be included in the budget in the online input form

### VOTE UP

The citizens can browse through the inputs shared by their neighbours in their locality and show their support by VOTING UP

1945	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	4th A Cross Road, MCHS Colony, Stage 2, BTM 2nd Stage, Bengaluru, Karnataka 560076, India	<p>the road has been made a mess with footpath relaying project and consistent digging of various utilities. The road has remained un tarred ever since the footpath project began about 2 years back (roughly). The road is further deteriorated with irregular allotment of space for garbage collection trucks to load garbage. The garbage authorities have chosen 4-5 hotspots along the length of the road to segregate the garbage. They shift their spot once every couple of months. In this process plastic, paper and other garbage fly away in the wind and has polluted the road. The road has been taking a lot more traffic than before (diversions from Silk Board towards B'ghatta Road) and there is dust, mud and filthy air being thrown up constantly.</p> <p>Request for:</p> <ol style="list-style-type: none"> <li>1. re-tarring (which is bound to happen sometime but is undefined as to when)</li> <li>2. allotment of garbage segregation space for the trucks (so that the neighbourhood doesn't have an eye-sore)</li> <li>3. garbage collection areas are cordoned off (like placing barricades of 10' height) neatly so that public can also respect the garbage duty workers their space and that the workers can operate</li> </ol>	Bruhat Bengaluru Mahanagara Palike	Pavan M

But Still, is there any slight chances that the lake surroundings can be cleaned and proper Jogging tracks can be added. The lake surroundings have become a trash spot now with people throwing all kind of trashes.  All the people(mostly from the PG's facing the lake) who are sitting on the pathways close to the lake, throw all the trash in the lake area. It is quite a disturbing site to see a clean lake getting dirtier.  Can this be taken up?	Bruhat Bengaluru Mahanagara Palike	Revathi KJ

4367	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	Ejipura, Bengaluru, Karnataka, India	I would like to include all that is under the Solid Waste management, viz maintain cleanliness of streets (sweeping, removal of debris), require regular door-to-door garbage collection, build composting units, build dry waste collection centers. It's basic hygiene to keep the surroundings clean, but every other road in Ejipura is filled & is now overflowing with garbage. It is very depressing to even step out of the house. Request you to kindly raise the issue with concerned dept. & help us maintain a clean & healthy environment.	Bruhat Bengaluru Mahanagara Palike	D. Sherly Papu

4368	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	Srinivagilu Main Rd, KHB Games Village, Ejipura, Bengaluru, Karnataka 560047, India	There is huge amount of waste lying in front of National Games Village. Thanks to BBMP for trying to clean it on regular base but main problem is of Chicken and mutton shops in ejipura. these shop keepers throw their waste (left over pieces and other waste mtrl of their shops) in front of NGV gate which stinks like hell its very difficult to even pass from there. (1)It is recommended that BBMP to be more strict towards these shopkeepers & others who throw garbage there.	Bruhat Bengaluru Mahanagara Palike	Vivek Singh
4371	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	Ejipura, Bengaluru, Karnataka, India	This is an issue that is needless to even describe. Almost every other road is uneven. Possible reason could be because of frequent digging of roads. High chances of accidents due to this situation. It is very depressing to even think of going out anywhere. Proper tarring of roads that will last for long is required. People of Ejipura will be ever grateful if the roads can be fixed.	Bruhat Bengaluru Mahanagara Palike	D. Sherly Papu
4727	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	Ejipura, Bengaluru, Karnataka, India	It's been a year since the time I have moved to ejipura and since then I have been witnessing roads being dug out every once in a while and being left unfinished for months and till date the scenario hasn't changed at all. I request the concerned authorities to kindly look into this issue seriously and have it fixed on a priority basis	Bruhat Bengaluru Mahanagara Palike	Sneha pradhan
4730	Solid waste management	Require regular Door to door garbage collection	Ejipura, Bengaluru, Karnataka, India	The condition has further worsened with the roads being dug out in every nook and corner and with visible potholes every where. Proper pick up of garbage is a necessity in this area	Bruhat Bengaluru Mahanagara Palike	Sneha pradhan

3599	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	Koramangala 2nd Block, Koramangala, Bengaluru, Karnataka, India	While one side of the Madiwala market road is being relaid, can the potholes on the remaining (active) side at least be temporarily fixed until the complete refurbishing is done later? The re-laying of the closed stretch may take a very long time judging by the state of progress, and in the meantime we need traffic on the open (active) part of the road to be able to move faster so that the bad daily jams at all sides approaching Krupanidhi Junction can be relieved to some extent. Right now commuting from any side towards Krupanidhi Junction is a nightmare because the traffic on Madiwala road flows too slowly because of the terrible condition of the road surface. 3629	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	902, S.T. Bed, Cauvery Colony, Koramangala, Bengaluru, Karnataka 560034, India	The 6th Main Road in 1st Block Koramangla was dug a year back for lying Sewer Lines. BBMP did a very very shoddy work in "Compacting" the earth before laying the road, due to which the road started to cave in and sink, making huge "craters". Last month BBMP, instead of filling more earth and properly compacting it and then laying "Tar", they put Concrete over it, which it TOTALLY against Road construction norms. Now the concrete fill is in even worse condition than what it was used to fix and the road portion has been cordoned off by BBMP for a Week WITHOUT any Work In Progress. This is not expected from BBPM for fixing the road. Hope this time BBPM gets the work done under Engineers and not mere illiterate contractors	Bruhat Bengaluru Mahanagara Palike	Ujjwal John

3976	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	Koramangala 6 Block, Koramangala, Bengaluru, Karnataka, India	A number of roads in Koramangala 6th and 8th blocks have been dug up, eventually left with road cuts, potholes, or filled in haphazardly with mud and left untarred. This is not only hampering the movement of people and vehicles, but also adding greatly to road dust and air pollution in the area, unbearably difficult especially for pedestrians and cyclists. These roads and footpaths need to be tarred/paved back on a priority basis.	Bruhat Bengaluru Mahanagara Palike	Radha
3986	Solid waste management	Require regular Door to door garbage collection	Koramangala 6 Block, Koramangala, Bengaluru, Karnataka, India	Require regular and effective door-to-door collection of segregated garbage; monitoring and cleaning of garbage dumps on streets ; setting up neighbourhood composting and dry waste collection/sorting/recycling centers. While the sweeping of litter does happen regularly, there is a lot of construction debris and uncleared road dust on many streets, adding to air pollution in the area. Isn't there a rule about not dumping construction materials all over footpaths, spilling onto roads and keeping it uncovered for months/years?	Bruhat Bengaluru Mahanagara Palike	Radha

Few days back, there was no electricity for more than 28 hours continuously which led to no water supply. This is not just one time that we faced this issue and mostly some days, power supply is off during the night hours when we require it the most.	Bangalore Electricity Supply Company	Poornima Anandan
4782	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	SG Palya, Venkateshwara Layout, Sadduguntepalya, Bengaluru, Karnataka 560029, India	The SG Palya cross road ends are filled with garbage which are thrown and dumped by the citizens as they are forced to do so, since there are no standardized facilities for waste collection. What makes it worse is that during nights, stray dogs which are a threat to the people traveling through the roads also tears up the waste and scatters it everywhere on these roads which causes further problems from the next day to the citizens.	Bruhat Bengaluru Mahanagara Palike	Neeraj V
4783	Mobility - Roads, Public transport	Construction of skywalks	DVK Rd, Bhavani Nagar, Sadduguntepalya, Bengaluru, Karnataka 560029, India	Traffic in SG Palya is horrible. The lanes are narrow and the number of vehicles is too high and very disorganized. At times its even difficult to walk on the road.	Bangalore Development Authority	Ashis

5035	Solid waste management	Require regular Door to door garbage collection	1st Main Cross, Jakkasandra, 1st Block Koramangala, Bengaluru, Karnataka 560034, India	It is a very good gesture from BBMP to participate in Swtch Bharath Abhiyaan. However, while erecting huge sign boards of warning penalties for dumping garbage, BBMP also must have alternate arrangements for garbage collection and disposal. It is not strange in cosmopolitan cities in rest of the world to have garbage bins installed at public places for garbage collection which shall make roadside clean and makes it easier for the sanitary workers to handle. Also BBMP need to ensure that the sanitary workers are paid properly so that they don't run a money collection racket of their own....!!!	Bruhat Bengaluru Mahanagara Palike	Rahul Govindan
