Associations participated in the workshop

MyCityMyBudget – Citizen engagement through workshops

Workshops (Citizen interaction sessions) were conducted at various citizen associations across Bengaluru to gather inputs from the citizens about the civic issues affecting them in their locality that should be addressed in the municipal budget for the year 2016-17. The workshops were moderated by IChangeMyCity (Janaagraha) and held at the offices of the respective citizens associations.

Discussion

The citizens at the workshop discuss about the civic issues that affects them in their locality

Submission of inputs

The citizens then shortlist and list down list of issues that should be included in the budget in the input form

Voting

In a voting session, all members of the association give their vote on the shortlisted issues that should be considered

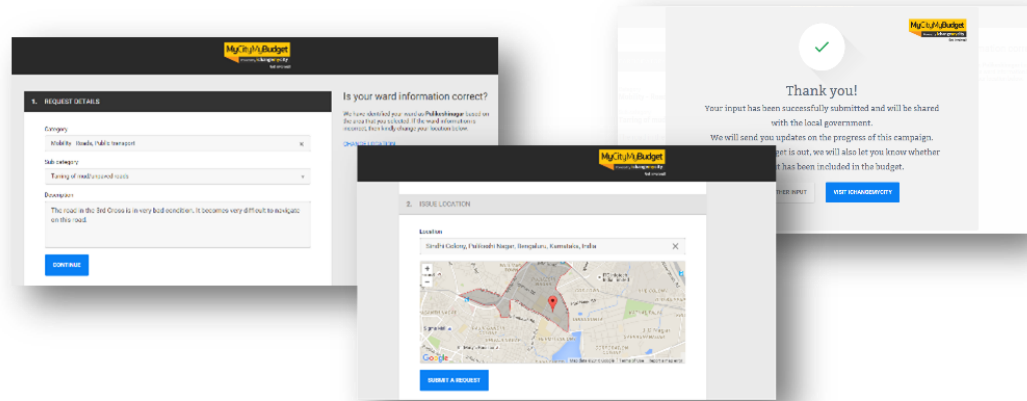

Prioritization

Based on the number of votes received, a final list is drawn which will contain the civic issues that needs to be addressed on priority

MyCityMyBudget – Citizen input collection on IChangeMyCity.com

The inputs from citizens were also collected online - on IChangeMyCity website (www.ichangemycity.com). The citizens were provided with an online form that enabled them to fill out inputs pertaining to their ward. They could also view the inputs shared by their neighbours in their ward and show support by VOTING UP on their inputs. Discussions about the civic issues to be considered also took place online on various social media sites.

2832	Environment	Beautification of medians/circles	Santaclara Aparts,18th main,3rd Cross, 4th T Block	<p>particular towards the southern side at the confluence of 80 ft road is in very bad in state due to following reasons.This was brought to notice many no of times but in vain.I earnestly request the authorities to take necessary steps in making the environment clean.</p> <p>RESONS:1. Mainly due to accumulation of Garbage thrown near the junction from nearby areas and collection & distribution of the same in BBMP trucks throughout the day. The stink and parking of the trucks in the area make life miserable for the passers who do not have proper pedestrian path even if is there it is unusable because of commercials tigon of the area.</p> <p>2. Adding woes to the worse condition the either side of the junction is busy with Public activity.ie.oneside is the Vajpayee Bus stand and the other side is the Public toilet.</p> <p>3.Further up from the junction is the warehouse of Hero Motors where loading & unloading of two wheelers take place.</p> <p>4.Furthur up is the area of temples buzzed with day to day activities.</p>	Bruhat Bengaluru Mahanagara Palike	Jagadisan Srinivasan
4213	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	36, 12th Main Rd, 4th Block East, KV Layout, Jayanagar, Bengaluru, Karnataka 560011, India	<p>Before tarring the roads, first we should Identify the Drainage system for Rain water flow from roads. We should find the holes of all these drainage beside roads. The tarring of roads should be done in such a way that, there should be slope done for Rain water to go to the edges and enter the drainage through the Holes provided (Identified). The Center of the Tarring should be thick and at the edges it should be slope. This way, the roads remain as they are for atleast 5 years. I have seen many times, the labour's wont be having this knowledge and they just put the Tar and go. If this care is taken, need to worry much about withstanding.</p>	Bruhat Bengaluru Mahanagara Palike	Suraj
