MyCityMyBudget – Citizen engagement through workshops

Workshops (Citizen interaction sessions) were conducted at various citizen associations across Bengaluru to gather inputs from the citizens about the civic issues affecting them in their locality that should be addressed in the municipal budget for the year 2016-17. The workshops were moderated by IChangeMyCity (Janaagraha) and held at the offices of the respective citizens associations.

Discussion

The citizens at the workshop discuss about the civic issues that affects them in their locality

Submission of inputs

The citizens then shortlist and list down list of issues that should be included in the budget in the input form

Voting

In a voting session, all members of the association give their vote on the shortlisted issues that should be considered

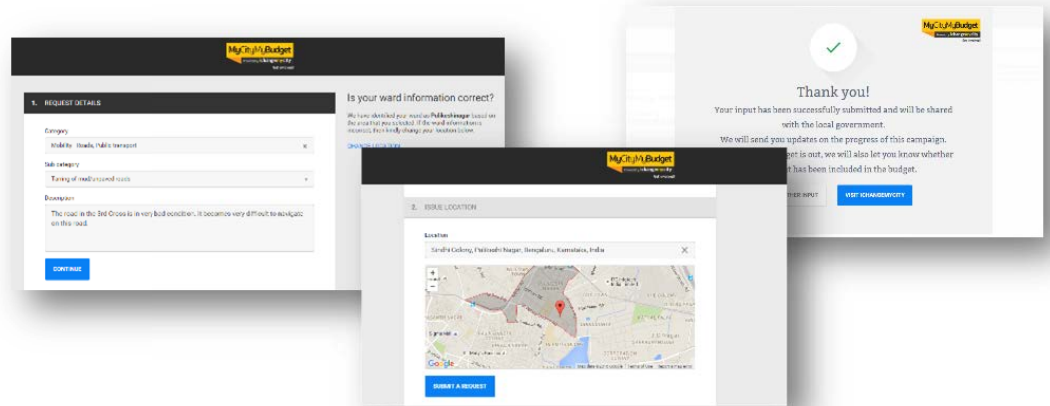

Prioritization

Based on the number of votes received, a final list is drawn which will contain the civic issues that needs to be addressed on priority

MyCityMyBudget – Citizen input collection on IChangeMyCity.com

The inputs from citizens were also collected online - on IChangeMyCity website (www.ichangemycity.com). The citizens were provided with an online form that enabled them to fill out inputs pertaining to their ward. They could also view the inputs shared by their neighbours in their ward and show support by VOTING UP on their inputs. Discussions about the civic issues to be considered also took place online on various social media sites.

2158	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	Mantri Tranquil Road, Gubbalala, Subramanyapura, Bengaluru, Karnataka 560062, India	I have been a resident of Mantri Tranquil for the past 4 years and it was only now that we have proper walkway for pedestrians on the road from our apartment to Kanakpura road. But that road is a nightmare. It is so bad that there are many potholes. Also people using private vehicles drive very fast especially late in the evenings. I see many trucks carrying sand near Sreeniketan apartments. This has been the case for the past year and a half and they do nothing out there. There is so much dust pollution due to this sand and terrible roads that people can have asthma and dust allergies as a result. Request you to make an effort to build proper roads, rectify the sewer leaks, and drive the sand trucks if they are there doing nothing on a daily basis.	Bruhat Bengaluru Mahanagara Palike	Brinjit

7307	Mobility - Roads, Public transport	Construction of new footpaths	Dorai Kere, Bengaluru, Karnataka, Bengaluru, Karnataka, India	Due to excellent maintenance and management of Dorai Kere by the concerned authorities, the lake has gained huge popularity in and around BHCS layout and other surrounding localities. Citizens young and old alike have started making use of the walk-way around the lake for walks, jogs, games, and evening relaxation. Addition of children's play equipment calls for huge appreciation. However, the walk-way is un-even and often causes injuries for runners and walkers. Please plan to lay tiles on the walk-way in Dorai Kere.	Bruhat Bengaluru Mahanagara Palike	Suresh g

5618	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	Yelachenahalli, Bengaluru, Karnataka 560062, India	This is with regarding to garbage piling on the corner of the road and also on the side roads, main problem for the collection of garbage in the road is that people from other roads also come and through the garbage and by next day it will be heavy collection. Can you please inform concerned authorities to remove the dust bin from this area and initiate for door to door collection. From this road will be clean and free from mosquitoes Really helpful if anyone takes action at the earliest. Location of the garbage collection is 2nd Main, 2nd A Cross, Post office road	Bruhat Bengaluru Mahanagara Palike	Amarnath D

491	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	5, Outer Ring Rd, 2nd Phase, 6th Block, Banashankari Stage I, Banashankari, Bengaluru, Karnataka 560085, India	The pourakarmika who collects garbage in our area is very lazy and collects garbage twice a week. She asks us money every month and if we delay by a week, she doesnt collect the garbage at all. Her work ethics are equally bad , she collects garbage from selected houses and finally without any care dumps it (actually throws it), next to the Auden school which is a huge hazard. 3664	Safety and Crime	Increase police beat patrolling	Rajeshwari Niwas, Chennammana Kere, Kathreguppe, BSK 3rd Stage, Banashankari, Bengaluru, Karnataka 560085, India	Off-late we notice youth between age group of 16 -25 years congregating in some places of Channammanakere Achukut. It is sometimes indecent as young couples standing in corners amid residential areas late in nights and having intimate encounters. There is a pattern developing with this happening at the corner road housing Women PG (7th Cross and 8th cross cornering 3rd main, parampara road). Further we also see youth parking vehicles on road/chatting and getting into drag races. Intermittent complaints to CKA police station is of no use. Hence, it is necessary to increase police beat patrolling on this road to ensure these kind of activities are stopped.	Bangalore City Police	Skumarbhon

1177	Public Utilities and services	Construction of public toilets	17, Puttenahalli, Phase 7, J P Nagar, Bengaluru, Karnataka 560078, India	There are no public toilets around JP Nagar 7th phase. This leads to people pissing on compound walls and in empty sites which leads to un-utilized spaces which inevitably become garbage dumping grounds. Although the BBMP has a highly dedicated team of hard working pourakarmikas, such un-utilized spaces where people keep constantly dirtying, will always attract garbage. So, i recommend 1. Build public toilets 2. Place dustbins	Bruhat Bengaluru Mahanagara Palike	Raghu

4977	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	Puttenahalli, Phase 7, J P Nagar, Bengaluru, Karnataka, India	Puttenahalli requires lot of improvement.Roads need to be tarred and road humps needs to be marked with flourescent for night visibility.Roads include internal roads also. Garbage piled up here and there.It is cleared after sometime but this dumping place can be covered say, a cement container can be kept in such places where seggregation happens.Also a board can be put in such places (around the lake) where people just throw the garbage. Street lights on internal roads are a necessity.Posts are present but bulbs are fused.Display no. for contact. Public toilets in this area is a necessity as pavements are now used as toilets. Lake protection is an absolute necessity. The fence put after a recent survey has been broken down and the path is used as a road.With this the people has started throwing the garbage in this place. 3608	Mobility - Roads, Public transport	Construction of new footpaths	39/14, Sarjapur Main Rd, Iblur Village, Bellandur, Bengaluru, Karnataka 560103, India	From iblur signal to agra side beside the iblur flyover, there is practically no footpath, which leave the pedestrains to walk on the main road or jump over the half covered drain beside road, which is too dangerous at night. Please do something to make that area walkable. Think about the aged people walking there and due to lack of light and low sightedness, they might fall inside those gaps., Also the same service lane which passes beside agara flyover to 27th main, is pathetic. Revamp that area and give that a life so that people getting down at the beginning of the agara flyover should get some space to walk down to 27th main. 4027	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	1188, 22nd Cross Rd, Sector 3, HSR Layout, Bengaluru, Karnataka 560102, India	Road cutting is rampant in HSR with construction happening through out the year on all the mains & crosses. After completion of the building (commercial or residence), owners dig up the road to get the water & electricity connection from the other side. BBMP collects the money for road cutting but does not tar the dug up part for months together. Owners do some temporary patch up which gets washed away in rain. The traffic on the roads is increasing and these dug ups at every 50 ft interval slows down the traffic, kicks up the dust & increases the pollution. Hence, either BBMP has to tar the dug up part within 3 days for having collected the road cutting fees or collect minimum fees and ask owners to cement the dug up part permanently	Bruhat Bengaluru Mahanagara Palike	Karunaprasad Kanavi

4076	Sanitation	Repair of broken storm water drains	1188, 22nd Cross Rd, Sector 3, HSR Layout, Bengaluru, Karnataka 560102, India	Storm water drains are present for only the name sake. They have become dumpyard for the garbage. There three categories of people who clog the drains - 1) Owners/Builders do not remove the debris/sand/mud/concrete from the drains around the building after completion of the construction. 2) Migrant workers/labourers & tenants shifting their house dump all their old stuff in the storm water drains before moving out of the locality..3) People regularly throw their garbage bags into the storm water drains. During heavy rains, these drains either overflow on the road or carry all the filth thrown in the drain to nearby Agara lake.. Hence regular check up & cleaning of storm water drain is required and put heavy fine for the offenders..	Bangalore Water Supply and Sewerage Board	Karunaprasad Kanavi

229	Electricity & Power	Ensure efficient and uninterrupted power supply	10, Gangaparameshwari Nagar, Kodichikkanahalli, DUO Layout, Bommanahalli, Bengaluru, Karnataka 560076, India	I have been staying in Duo Enclave Layout, which is next to Vijaya Bank Layout. From last one and half year, i am surprised to find that there is hardly a single day when there is no power cut in the morning. Every day morning, there is a power cut at about 7AM and restores back at 10AM. This is the time we get ready for office and due to power cut, we cant heat water for bath, cant iron clothes, cant prepare breakfast, no power hence no water... when will this resolve... till today i find that there is unauthorised power cut every morning for 2 hours or so. Isnt it high time for BESCO authorities to understand that to pay their electricity bills, we have to go to office, earn money.	Bangalore Electricity Supply Company	Amitabha Chatterjee

4737	Environment	Maintenance of saplings/trees	Hulimavu, Bengaluru, Karnataka 560076, India	Between Akshay Nagar to Hulimavu and on Visweswarayya Road, there are lot of saplings planted but they were not maintained. Once the saplings were planted on the pavement work was started and now there are no samplings across the road. New saplings to be planted and also the saplings needs to be maintained so that they would grow.	Bruhat Bengaluru Mahanagara Palike	Gurudath
4739	Mobility - Roads, Public transport	Lane marking and Road signages	Hulimavu, Bengaluru, Karnataka 560076, India	At the intersection of Hulimavu Main Road and Visveswarayya Road, there are humps, signages required, sooner the better. Traffic during peak hours have increased and slowly started to create chaos.	Bruhat Bengaluru Mahanagara Palike	Gurudath
4740		Construction of new bus shelters	Hulimavu, Bengaluru, Karnataka 560076, India	At the intersection of hulimavu main road and visveswarayya road, a bus shelter is required. People are now waiting for bus without any shelter or not knowing where exactly to stand. Also bus schedule needs to be put. This would help people plan their travel better.	Bruhat Bengaluru Mahanagara Palike	Gurudath
4743	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	Hulimavu, Bengaluru, Karnataka 560076, India	Where Visveswarayya road takes a right turn to go towards Hulimavu Bus Stop(Temple), there is a lot of debris and garbage being accumulated where there are a few vacant sites or sites belonging to Govt. In a few months time, when it starts raining, this could lead to spread of diseases in that area. Please clean up this area and fence it, so that no one disposes their garbage or debris. 1945	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	4th A Cross Road, MCHS Colony, Stage 2, BTM 2nd Stage, Bengaluru, Karnataka 560076, India	the road has been made a mess with footpath relaying project and consistent digging of various utilities. The road has remained un tarred ever since the footpath project began about 2 years back (roughly). The road is further deteriorated with irregular allotment of space for garbage collection trucks to load garbage. The garbage authorities have chosen 4-5 hotspots along the length of the road to segregate the garbage. They shift their spot once every couple of months. In this process plastic, paper and other garbage fly away in the wind and has polluted the road. The road has been taking a lot more traffic than before (diversions from Silk Board towards B'ghatta Road) and there is dust, mud and filthy air being thrown up constantly. Request for: 1. re-tarring (which is bound to happen sometime but is undefined as to when) 2. allotment of garbage segregation space for the trucks (so that the neighbourhood doesn't have an eye-sore) 3. garbage collection areas are cordoned off (like placing barricades of 10' height) neatly so that public can also respect the garbage duty workers their space and that the workers can operate	Bruhat Bengaluru Mahanagara Palike	Pavan M

3668	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	267, 21st Cross Rd, Gowda Muniswamy Garden, Ejipura, Bengaluru, Karnataka 560047, India	There is a vacant site next to my house which is being used as a dumping ground for a very long time. I have made several complaints in the past to not much avail and the dumping is still highly prevalent. The garbage dumped there is a very big health hazard and to add to that the same is sometimes just set on fire adding to the pollution of the atmosphere. I hope and pray that this site owner would be asked to build something there, at least a compound wall so that people dont dump garbage there.	Bruhat Bengaluru Mahanagara Palike	Anil Tm

4368	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	Srinivagilu Main Rd, KHB Games Village, Ejipura, Bengaluru, Karnataka 560047, India	There is huge amount of waste lying in front of National Games Village. Thanks to BBMP for trying to clean it on regular base but main problem is of Chicken and mutton shops in ejipura. these shop keepers throw their waste (left over pieces and other waste mtrl of their shops) in front of NGV gate which stinks like hell its very difficult to even pass from there. (1)It is recommended that BBMP to be more strict towards these shopkeepers & others who throw garbage there.	Bruhat Bengaluru Mahanagara Palike	Vivek Singh
4371	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	Ejipura, Bengaluru, Karnataka, India	This is an issue that is needless to even describe. Almost every other road is uneven. Possible reason could be because of frequent digging of roads. High chances of accidents due to this situation. It is very depressing to even think of going out anywhere. Proper tarring of roads that will last for long is required. People of Ejipura will be ever grateful if the roads can be fixed.	Bruhat Bengaluru Mahanagara Palike	D. Sherly Papu

2082	Solid waste management	Require regular Door to door garbage collection	Koramangala 6 Block, Koramangala, Bengaluru, Karnataka, India	I feel that there is lot piling up of garbage in certain areas of this locality. 	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	9, Mahatyagi Laksmidevi Rd, Koramangala 1A Block, SBI Colony, Koramangala, Bengaluru, Karnataka 560034, India	The road from STBed Layout, 4th Block Koramangala to 7th A Main Road, 1st block is POTHOLE ridden for years and with the movement of Loaded Trucks due to Construction activity of Prestige and G-Corp it has become worst. This needs immediate attention - to fill the POTHOLEs and Also Impress Upon the Builders to maintain the Road as because of the movement of heavy traffic arising out of construction the road will get damaged quite frequently. Further the Road from Wipro Junction towards Jakasandra is in real bad shape for the last 2 years and needs immediate filling of potholes followed by tarring of the road.	Bruhat Bengaluru Mahanagara Palike	Jitendra
3599	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	Koramangala 2nd Block, Koramangala, Bengaluru, Karnataka, India	While one side of the Madiwala market road is being relaid, can the potholes on the remaining (active) side at least be temporarily fixed until the complete refurbishing is done later? The re-laying of the closed stretch may take a very long time judging by the state of progress, and in the meantime we need traffic on the open (active) part of the road to be able to move faster so that the bad daily jams at all sides approaching Krupanidhi Junction can be relieved to some extent. Right now commuting from any side towards Krupanidhi Junction is a nightmare because the traffic on Madiwala road flows too slowly because of the terrible condition of the road surface. 3629	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	902, S.T. Bed, Cauvery Colony, Koramangala, Bengaluru, Karnataka 560034, India	The 6th Main Road in 1st Block Koramangla was dug a year back for lying Sewer Lines. BBMP did a very very shoddy work in "Compacting" the earth before laying the road, due to which the road started to cave in and sink, making huge "craters". Last month BBMP, instead of filling more earth and properly compacting it and then laying "Tar", they put Concrete over it, which it TOTALLY against Road construction norms. Now the concrete fill is in even worse condition than what it was used to fix and the road portion has been cordoned off by BBMP for a Week WITHOUT any Work In Progress. This is not expected from BBPM for fixing the road. Hope this time BBPM gets the work done under Engineers and not mere illiterate contractors	Bruhat Bengaluru Mahanagara Palike	Ujjwal John

3976	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	Koramangala 6 Block, Koramangala, Bengaluru, Karnataka, India	A number of roads in Koramangala 6th and 8th blocks have been dug up, eventually left with road cuts, potholes, or filled in haphazardly with mud and left untarred. This is not only hampering the movement of people and vehicles, but also adding greatly to road dust and air pollution in the area, unbearably difficult especially for pedestrians and cyclists. These roads and footpaths need to be tarred/paved back on a priority basis.	Bruhat Bengaluru Mahanagara Palike	Radha
3986	Solid waste management	Require regular Door to door garbage collection	Koramangala 6 Block, Koramangala, Bengaluru, Karnataka, India	Require regular and effective door-to-door collection of segregated garbage; monitoring and cleaning of garbage dumps on streets ; setting up neighbourhood composting and dry waste collection/sorting/recycling centers. While the sweeping of litter does happen regularly, there is a lot of construction debris and uncleared road dust on many streets, adding to air pollution in the area. Isn't there a rule about not dumping construction materials all over footpaths, spilling onto roads and keeping it uncovered for months/years?	Bruhat Bengaluru Mahanagara Palike	Radha

4773	Mobility - Roads, Public transport	Introduction of new bus routes	Hosur Road, Bengaluru, Karnataka 560029, India	bus stop opposite to christ university should be either pushed forward or road should be extended to accomodate stoppage of busses so that traffic jams are reduced. as busses stop and jam the roads and they stop in a unfashionable way especially Tamilnadu busses and also KSRTC. Same problem near Nimhans hospital near fly over	Bangalore Metropolitan Transport Corporation	Dilip k Singh
4775	Mobility - Roads, Public transport	Repair of existing footpaths	Christ University, Hosur Road, Campus Road, Bhavani Nagar, Sadduguntepalya, Bengaluru, Karnataka 560029, India	There are lots of pits which requires maintenance.	Bruhat Bengaluru Mahanagara Palike	MANASA S
4776	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	Tavarekere Main Rd, Sadduguntepalya, Bengaluru, Karnataka 560029, India	on road from Tavarekere main road to madiwala (towards St Antony's fairy church). garbage is disposed on road, and people live in that area are exposed to pollution due to this solid waste. clearing waste on road and building waste management centre would be helpful.	Bruhat Bengaluru Mahanagara Palike	Anupama
4777	Electricity & Power	Ensure efficient and uninterrupted power supply	Sadduguntepalya, Bengaluru, Karnataka, India	Since there are several schools and Christ college in the locality, there are lots of student community within this locality. Therefore its necessary to ensure uninterrupted power supply .	Bangalore Electricity Supply Company	Sachin Koshy
4778	Electricity & Power	Ensure efficient and uninterrupted power supply	Sadduguntepalya, Bengaluru, Karnataka, India	It has been that there was frequent power cuts at the S.G.Palya area for the current month which lead to great loss for most of the shopkeepers as well as students who were struggling to get through their studies in this busy era. So i would like to request to the government to look over this issue seriously and do the needful.	Bangalore Electricity Supply Company	
4780	Solid waste management	Build dry waste collection centres	Hosur Road, Bengaluru, Karnataka 560029, India	Next to Christ University we have a Munnishwara temple, beside which heavy solid waste is dumped and it stinks badly. It's partially dumped on the footpath. Thus there isn't enough space for the public to walk. Also this can lead to many severe diseases to the people in the locality. 4781	Electricity & Power	Ensure efficient and uninterrupted power supply	5th Cross Rd, Venkateshwara Layout, Sadduguntepalya, Bengaluru, Karnataka 560029, India	My area is experiencing lack of power supply certain days for the past few months. Few days back, there was no electricity for more than 28 hours continuously which led to no water supply. This is not just one time that we faced this issue and mostly some days, power supply is off during the night hours when we require it the most.	Bangalore Electricity Supply Company	Poornima Anandan
4782	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	SG Palya, Venkateshwara Layout, Sadduguntepalya, Bengaluru, Karnataka 560029, India	The SG Palya cross road ends are filled with garbage which are thrown and dumped by the citizens as they are forced to do so, since there are no standardized facilities for waste collection. What makes it worse is that during nights, stray dogs which are a threat to the people traveling through the roads also tears up the waste and scatters it everywhere on these roads which causes further problems from the next day to the citizens.	Bruhat Bengaluru Mahanagara Palike	Neeraj V
4783	Mobility - Roads, Public transport	Construction of skywalks	DVK Rd, Bhavani Nagar, Sadduguntepalya, Bengaluru, Karnataka 560029, India	Traffic in SG Palya is horrible. The lanes are narrow and the number of vehicles is too high and very disorganized. At times its even difficult to walk on the road.	Bangalore Development Authority	Ashis

5035	Solid waste management	Require regular Door to door garbage collection	1st Main Cross, Jakkasandra, 1st Block Koramangala, Bengaluru, Karnataka 560034, India	It is a very good gesture from BBMP to participate in Swtch Bharath Abhiyaan. However, while erecting huge sign boards of warning penalties for dumping garbage, BBMP also must have alternate arrangements for garbage collection and disposal. It is not strange in cosmopolitan cities in rest of the world to have garbage bins installed at public places for garbage collection which shall make roadside clean and makes it easier for the sanitary workers to handle. Also BBMP need to ensure that the sanitary workers are paid properly so that they don't run a money collection racket of their own....!!!	Bruhat Bengaluru Mahanagara Palike	Rahul Govindan

1163	Mobility - Roads, Public transport	Lane marking and Road signages	Bellary Slip Rd, Hebbal, Bengaluru, Karnataka 560024, India	This is relating to the traffic lanes leading to Hebbal from Manyata Tech Park. There are 3 ways - one leading to the service road, one that goes straight and the last one is the fly-over leading towards Mekhri circle. The issue is about the road leading to the service road and the through (straight) road are not of uniform width through the stretch. While the service road way increase from 2 lane to 3 or 4 lanes, the straight road decreases from 2 lanes to 1 lane. This leads to bottle-necking, near-miss situations and traffic jam. The median separating the two ways has trees. It would need cutting down half the trees to make the lanes of uniform width through the stretch. I believe in the larger interest of human lives and better traffic management, it would be good to have uniform width lanes. I would like to thank you for providing this forum to air my thoughts. There is no proper water supply to this area from the Panchayat (Now BBMP) bore. this complaint has been given in the BBMP office in Dasarahalli about 2 to 3 years back but nobody is bothered to even come and look at the Issue, forget Solving. This issue has also been told to the Volunteers and the Candidates when they have come asking for Votes, but no use. 2.) BWSSB Drainage is not there in any of the crosses from 1st-A cross to almost 20th-A cross. 3.) Cauvery Water line is not there. When these basic amenities are not there then what can we expect from the Leaders and the Care takers of this ward. I feel that this Change my city and swatch Bharath slogans are all a eye wash. 4157	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	Amrutahalli, Bengaluru, Karnataka, India	Why can't BBMP follow a simple procedure that is used all over the world? The contractor who does road tarring is responsible for maintaining the road for another one year. So contact should be tarring and maintenance. It is the contractor who is responsible if any pot hole pops up. Any pot hole found by the citizens will result in huge fine to the contractor. Secondly if anyone digs a newly tarred road huge fine should be paid to the contractor who is again responsible to tar the road after work is complete. This will ensure the roads stay beautiful and reduce the traffic congestion and accidents to a major extent.	Bruhat Bengaluru Mahanagara Palike	Rohan Mathews

3296	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	16, 4th Cross Rd, Lakkasandra, Lakkasandra Extension, Wilson Garden, Bengaluru, Karnataka 560030, India	There is no road in Lakkasandara which is flat and clean. Every 0.5metres there is a pothole and uneven roads. The road near my home hasn't changed over the years. I hope i see a positive result.	Bruhat Bengaluru Mahanagara Palike	Asjad Nabil
3297	Electricity & Power	Ensure efficient and uninterrupted power supply	45, 15th Cross Rd, Lakkasandra, Lakkasandra Extension, Wilson Garden, Bengaluru, Karnataka 560030, India	We stay in a 21st century and we Bangaloreans do not have proper lights. This is shameful, embarrassing and annoying. We are teenagers and we hardly use the gas stow so we use ovens. The situation becomes tough when there is no proper power supply. And when our exams appear it becomes even more tougher. Please make sure you guys solve it and i hope my suggestions aren't ignored	Bangalore Electricity Supply Company	Asjad Nabil
3898	Sanitation	Repair of broken storm water drains	5th Cross Rd, Wilson Garden, Bangalore, Karnataka, India	There's a major problem with the storm water drain on 5th cross, Wilson Garden Bengaluru - 560027. Each of them contacted at the higher levels claims that it requires a lot of budget to rectify the problem and in turn we suffer whenever there is a heavy downpour with the water logging and sometimes even entering our house. So request for fast response to this major problem before the start of the monsoons.	Bangalore Water Supply and Sewerage Board	Rupali Upadya
3923	Environment	Beautification of medians/circles	5th Cross Rd, Wilson Garden, Bangalore, Karnataka, India	Since there are houses only on one side of our road as the opposite side is the property of Abhaya Ashram with its entrance on the 4th cross, we have to tolerate uncouth persons using the Ashram compound wall for defacement. The consequence of which is dirty, stinky roads with a huge mosquito menace. My suggestion is to at least put up some benches on the foot path as this may act as a deterrent to the culprits. 4905	Water Supply	Regular supply of water	Basavanagudi, Bengaluru, Karnataka, India	Regular supply of water is possible only with ground water recharge. Ground water fast depleting. To bring up the water level only way is to have small tanks with sand and gravel in these, all along the rain water drains on either sides of roads. This has to be done by the government only as it involves a thousand crore. But this will solve the drinking water problem in the city. How? I can give full detailed drawn up plan for the same. 4987	Mobility - Roads, Public transport	Provision for parking	Mohamad Nilayam, Bairasandra Extension, Jayanagar, Bengaluru, Karnataka 560011, India	This is the connecting road from Bangalore North to south inhabited by lower middle class in general and middle class in particular. The road earlier was a residential one and almost all the original owners have sold their property which are currently purchased and inhabited by a particular community. The vehicular traffic is such that the road will be having traffic jam always. Construction work from ordinary citizen to politicians are creating problems to pedestrians and vehicular traffic. No police patrolling is observed and always it is clashes to get out of the jam. things required to be done immediately: 1. clear the footpaths 2. provide police patrolling 3. ensure that all the commercial establishments are legal. verify the licences. 4 Make this road one way. 5. Penalise the people who are parking their vehicles on footpaths and roads. 6. clear the road of banners. 7. penalize heavily those who throw garbage.	Bruhat Bengaluru Mahanagara Palike	Vaidyanath.

4701	Environment	Maintenance of saplings/trees	New Thippasandra Main Rd, Puttappa Colony, New Thippasandra, Bengaluru, Karnataka 560075, India	2) Garbage collection system needs to be streamlined immediately. There are only checks and no balances for us common citizens from BBMP administration's point of view. Even garbage collection is not happening in a regulated manner. 3) There is a lot of tree cutting happening to make way for commercial structures. Neither the local residents who are being requested to not cut trees are listening, nor government authorities who have sufficient teeth are interested in stopping these residents / shop owners from cutting trees. 4) Water supply is good and needs to see cleanliness of water though. There is too much of contamination of water happening in our area nowadays. 5) There is too much of FSI violation happening in our area, which may be disastrous in case of natural emergency. Concerned BBMP guys are simply turning a blind eye towards these violations. 6) Local corporator is not seen in the scene at all. Instead it is her husband who is wielding the power for everything concerned in our area. It is a clear cut failure of having kept our ward reserved for ladies candidate. 4731	Mobility - Roads, Public transport	Increase frequency of buses	New Tippiasandra, Bengaluru, Karnataka 560075, India	allocation and immediate effective use of all available resources for other categories along with the one I've chosen above. I think, the areas of solid waste management, safety & crime, environment are just as important as mobility of roads and public transport. Too many commercial establishments are coming up in Thippasandra and creating a huge nuisance in terms of traffic jam and high level of construction noise. One recent commercial building came up after destroying a vegetable market that was there for SEVERAL YEARS; More than 10 Years!! Irresponsible Parking of cars on narrow lanes, blocking the gates of houses is another increasing nuisance. Despite, being known as a well developed, well connected locality, Thippasandra-Kodiahalli-JeevanBimanagar are not having the desired level of frequency of buses. When it is known that from 7:30 AM to 9:00 AM are the peak, prime hours of travel for Students and Working people, increasing the frequency of buses is the next obvious step that Must be taken. Using public transport is the Only feasible , affordable and safe option for many people. Kindly Increase the number and the frequency of buses going towards Majestic, Shivajinagar and	Bangalore Metropolitan Transport Corporation	Priya N M

266	Mobility - Roads, Public transport	Provision for parking	Indira Nagar II Stage, Hoysala Nagar, Bangalore, K	CMH Road and 100 feet roads have many commercial establishments that do not provide parking for their customers and staff and even if they do, it is not sufficient. Most if these vehicles are being parked in residential areas making it impossible for the residents to park their own vehicles or even peacefully walk around in the residential lanes without having to fear. The Indiranagar Metro station also does not have a parking space. It would be good if the space available in BDA Complex Indiranagar which is hardly 400 metres from the Metro station can be used for multi level vehicle parking space. Likewise, Swami Vivekananda Road metro station also needs a multi level parking space. There are spaces available on 80 feet road and Old Madras road in Indiranagar. As Bangalore's vehicle ownership increases, we find BOTH sides of residential localities have parked cars thereby making it difficult to walk and drive through these localities. If vacant sites are made compulsory parking, these roads would become more free. The owner would be able to earn a few bucks but more important, the site would become garbage free and serve a useful purpose to the community for as long as its vacant. Typical 34x40 sites would easily accommodate 6 cars and several two wheelers.	Bruhat Bengaluru Mahanagara Palike	Ramesh Viswanath

Broken pavements to be replaced adjoining BDA park on the railway parallel Road. 3. The depression opposite Metro station on the railway parallel road needs to be patched up urgently as it can become serious issue. 4. Several stretches in the railway parallel road requires asphaltting. 5. The footpath on either side of railway parallel road has given way and needs to be done up. 6. The stones used as road divider on the railway parallel road needs to be aligned and fixed firmly. 6. On the Old madras Road near Byappanahalli Metro station many two wheelers cross over the median and this should be arrested by raising the median height and patching the gaps. 7. Reflector to be installed on the railway parallel road and on the old madras Road.	Bruhat Bengaluru Mahanagara Palike	B S Iyer

222	Mobility - Roads, Public transport	Introduction of new bus routes	29, 29th Cross Rd, Kaggadasapura, Bengaluru, Karnataka 560093, India	Anyone travelling from Kaggadasapura to marathahalli-silkboard side has no proper bus connectivity. People have to walk atleast 2-3kms to either reach Old Airport Road or ORR (mahadevapura or KRPuram Railway stn). It would be good if mini buses or regular bus connectivity is introduced in the CV Raman Nagar/Kaggadasapura area to reach ORR/Old Airport Road. Most of the people are dependent on provate vehicles otherwise.	Bangalore Metropolitan Transport Corporation	Rajangam
238	Mobility - Roads, Public transport	Construction of flyovers/ underpass	29, 29th Cross Rd, Kaggadasapura, Bengaluru, Karnataka 560093, India	The kaggadasapura Railway crossing is a traffic bottle neck. 1132	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	Kaggadasapura Main Rd, Kaggadasapura, Bangalore, Karnataka, India	The main kaggadasapura road is being used as a dumping and sorting yard with heaps of garbage literally in your face for students going to school, people going to work ,pathetic sight of cows eating plastic, dogs scavenging and flies and filth strewn around. I mean dont we have any consideration for our people exposing them to disease and filth day in and day out. This road was so well maintained and clean just a year ago and now bringing garbage on to the main road and footpath with thousands walking by every day. And this is next to the main storm water drain and you can see piles of thermocol ,plastic and such like dumped into the drain. We have a responsibility towards our future generations so they can grow up in a clean environment like we did. Please help save this planet from the insensitive ,mindless, selfish politicians and lets work towards our right to a garbage free and clean environment.	Bruhat Bengaluru Mahanagara Palike	Ponnappa
1205	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	C V Raman Nagar, Bengaluru, Karnataka, India	Govt. should take care of maintaining clean roads and streets since in Bangalore the roads are in a very bad shape, the pedestrains are not maintained, and whatever is left of the road is dumped with garbage. as a result it has become impossible for the people to walk on the roads. I would prefer some Senior Minister or someone to visit the Kaggadasapura roads or the Nagavarpalya roads and check how difficult it is for public to walk on those roads which are permanently stinking with garbage dumps. 2094	Sanitation	Repair of broken storm water drains	Diamond District, HAL Airport Rd, ISRO Colony, Domlur, Bengaluru, Karnataka 560008, India	The open 'nullah' right next to Diamond District emits toxic fumes and a foul smell almost throughout the day. These fumes are potent enough to cause intermittent issues in electronics and electricals; consider what it must do to the humans and animals constantly living close-by. Is there any way to change the state of affair? Is it a storm water drain or a sewer drain? If a storm water drain, what are the sources of the toxins/chemicals/sewage that flow into it? Any solutions would be welcome	Bangalore Water Supply and Sewerage Board	Vivek Anandan
2111		Repair of existing bus shelters	HAL Airport Rd, Kodihalli, Bengaluru, Karnataka 560008, India	There is a bus stop currently underneath the Domlur flyover right before the entry ramp to the flyover towards Indira Nagar. This hampers smooth traffic flow towards Indira Nagar and often leads to minor accidents. With passengers alighting the vehicle at the entry ramp, the situation can get quite dangerous. Request competent authorities to relocate the bus stop (currently not sheltered) to a location slightly farther away from the entry ramp.	Bangalore Metropolitan Transport Corporation	Vivek Anandan

2619	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	10/3, Embassy Golf Links Road, Embassy Golf Links Business Park, Domlur, Bengaluru, Karnataka 560071, India	Links to Wind Tunnel Road (i.e. EGL Road and Challaghatta Road) is in an utter state of disrepair. Thousands of automobiles as well as pedestrians use this narrow stretch everyday to get to/from their workplaces in EGL and as a throughfare to Inner Ring Road. The vehicle movement is terribly slow as the already narrow road has been reduced to half its effective width due to its poor quality. Pedestrians at risk as they have to walk at the very edge of the road. Furthermore, this busy road has no streetlights and is even more of a safety hazard in the evenings. It is a health hazard all day long as so much dust is kicked up by passing traffic. Ironically, only a fence separates it from the posh and lush green golf course. I request whoever is responsible for this stretch to immediately pave the road for quick movement of vehicles as well as demarcate a footpath for safe passage of pedestrians. This road takes away a significant load of traffic from the congestion points at ISRO signal, Domlur flyover, and the U-turn on the Inner Ring Road. Improving it will immediately improve the daily lives of thousands of people. We are talking about a stretch of road that is only perhaps 200 meters	Bruhat Bengaluru Mahanagara Palike	Mahesh Shantaram

3240	Sanitation	Maintenance of sewage lines	Srinivas Residency, K R Garden, Murugeshpalya, Bengaluru, Karnataka 560017, India	My locality, K R Gardens, Murugeshpalya is the most ignored area the whole of Bangalore, In recent times many apartments have come up and the sewage line which was originally made during the late ninety's still exist and they are not able to take the load, these lines have to be upgraded as almost everyday we see sewage overflowing on to the non existent roads and during rains the hard matter from sewage gets mixed with BWSSB water and enters our sumps and we would not know until consumed or bathed with. Uncleared garbage adds to this as rats dig tunnels underground to feed on the waste and wet waste flows underground contaminating water. I would request BBMP to collect wet waste everyday and dry waste once or twice a week, and upgrade our sewage lines before Tarring the roads, if done correctly why would there be maintenance issues... 4470	Environment	Maintenance of existing public parks/playgrounds	HMT Layout, Bengaluru, Karnataka, India	Parks in my area were developed during 2012 (approx.) but many of the parks remain under developed and not developed at all . I wish to note down few points which i personally think any corporator / MLA / BBMP official can fix : 1. Develop the under developed parks immediately. 2. Better Light facility in the park so that people whowish to visit park during evening because of there busy day schedule will benefit and thos who start early before sunrise. 3. Provide proper seating facilities , which elders can benefit while their kids or grandkids play. 4. Maintain a healthy environment by trimming the plants wherever necessary and watering as and when required. 5. Better tracks inside the park so that anyone and evryone can benefit. 6. Maintain the strict timings and never let the people to use it for their personal use(for partying or arranging some meetings or functions) which might encourage others to do the same. with reference to the above points i wish to speak out LOUD to my area BABU's(corporator or an MLA or any BBMP official) to develop the under developed parks and benefit the commoners. 4192	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	U.P Haven, VV Giri Colony, Sheshadripuram, Bengaluru, Karnataka 560020, India	Second main road sheshadripuram and the road opposite to sheshadripuram police station which connects to platform road has been a mess for more than 3-4 months. They tar it and next week some dept comes and digs more holes and nobody bothers to repair the dug out roads. The people staying here arrange and fill these potholes with mud and stones as no authority repairs it for more than a week. Many vehicles used to get stuck or get damaged as they go down these potholes. The entire 2 nd main sheshadripuram needs planned tarring . Hopefully concerned authorities will take this up seriously	Bruhat Bengaluru Mahanagara Palike	Ram

The place is called nagarabhavi "circle", but i don't find any circle there. There is no divider. Buses dont stop near bus stops. people has run behind to get their buses. Moreover, there is no signals. Kindly, install signals, it will be great help And after 7, buses from all directions come. we find buses going towards kengeri, banashankari and two other places. it is good, they have provided bus facilities. And we require a traffic police. Kindly look into the problems and thank you for the opportunity by BBMP	Bangalore City Police	Sriraksha Km

6645	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	Shriram Srishti Apartments, Chola Nagar, Anandnagar, Hebbal, Bengaluru, Karnataka 560024, India	Please invest in good garbage collecting vehicles for BBMP workers. Everyday I seem them pulling / pushing heavy iron cart in which they collect garbage from the house / street. Does not feel like its 21st Century and does not feel like we are in IT city like Bangalore - Battery operated vehicles can be provided to BBMP workers contractors for collection of garbage and for carrying it to collection points, this will not only motivate workers, but will also improve their efficiency. 2073	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	RT Nagar, Bengaluru, Karnataka, India	This is with regard to RT Nagar, 2nd Block area. The streets across the area are not maintained well, with garbage and construction debris just strewn around. Debris includes, cement bags, rubble, large rocks, bricks, etc. Further, several pavement blocks are just lying broken, and stuffed with garbage, becoming invariable shelters for stray dogs, and nesting grounds of infectious diseases. Requesting allocation of the ward budget towards towards maintaining cleanliness of the streets in the area.	Bruhat Bengaluru Mahanagara Palike	Avnav Pujara

3783	Mobility - Roads, Public transport	Introduction of new bus routes	Shriram Whitehouse Apartment, Govindaraj Garden, RT Nagar, Bengaluru, Karnataka 560032, India	Hello. The dinnur main road in R T Nagar is quite a narrow road with much population, stores and bustling activity on either sides of the road. The issue is that due to the many buses that cross this road during peak hours and otherwise, traffic is constantly held up due to the sheer size of the buses in proportion to the road. I understand that it is a main bus route but if there is something that can be done about the road or the route the bus follows, it would be a great improvement over the daily traffic faced by the residents. 1296	Solid waste management	Require regular Door to door garbage collection	#404 GaganMurthy Apts,Patel Muniappa Layout,V.Nagenahalli,RT N agar Post,Bangalore 560032	Waste collection is not regular.Inspite of persistent requests and cajoling waste removal from apartments are very irregular.Further Garbage piling up in street corners pose health problems.	Bruhat Bengaluru Mahanagara Palike	S.ramamoorthy
1302	Mobility - Roads, Public transport	Repair of existing footpaths	#404 GaganMurthy Apts,Patel Muniappa Layout,V.Nagenahalli,RT N agar Post,Bangalore 560032	The walking on the side of the roads have become impossible in Bangalore especially for senior citizens.There are either broken slabs or no slabs at all.Even the existing paths are occupied by shop keepers or house owners.Even if the padestrians are walking on the extreme right or left on the road the vehicles passing by hit them from rear or in the front.Two wheel drivers take the footpaths for quick commutation.Where the padestrians will go if no park are provided in the area in which the residents live.	Bruhat Bengaluru Mahanagara Palike	S.ramamoorthy
1311	Electricity & Power	Ensure efficient and uninterrupted power supply	#404 GaganMurthy Apts,Patel Muniappa Layout,V.Nagenahalli,RT N agar Post,Bangalore 560032	Street lights are not burning on some areas.But in areas where the lights are functioning they are not put off in the early hours but allowed to burn for long time and even upto 10 am.When the state is reeling under power shortage such a national wastage is atrocious.Lights can be switched off automatically at the dawn to avoid wastage.	Bangalore Electricity Supply Company	S.ramamoorthy
1324	Sanitation	Maintenance of sewage lines	#404 GaganMurthy Apts,Patel Muniappa Layout,V.Nagenahalli,RT N agar Post,Bangalore 560032	Storm water drains and waste water drains are maintained properly.The waste water drains are open leading to fowl smell causing health problems.The existing drains require covering with slabs so that the fowl smell will not harm the public.In certain areas such covered drains can be utilised for construction of roads other amenities . So as to utilise the space usefully.	Bangalore Water Supply and Sewerage Board	S.ramamoorthy

3582	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	2nd Cross Rd, Banday Colony, Raj Mahal Vilas 2nd Stage, Sanjaynagar, Bengaluru, Karnataka 560094, India	The dumping of garbage around Sanjaynagar and RMV 2nd stage has been a problem over the last few years. Sites next to houses and kindergarten school have been turned into dumping grounds, this leads to infestation and a foul smell spread across the area. Concerned authorities need to set up safer and better placed drop points for garbage and must ensure timely pick up of the garbage. Garbage is mainly dumped in the residential areas, which can cause a widespread epidemic and so forth.	Bruhat Bengaluru Mahanagara Palike	Rahisha Sinan
3584	Mobility - Roads, Public transport	Installation of streetlights	2nd Cross Rd, Banday Colony, Raj Mahal Vilas 2nd Stage, Sanjaynagar, Bengaluru, Karnataka 560094, India	Seems like the whole area of RMV 2nd stage is lacking streetlights, in many areas there lacks the number of streetlights and in some, the streetlights seem to either not work or turned off completely. 80 feet road, which has street lights on both sides of the road, neither of which are turned on. Seeing that it is a main road with many commercial and residential properties, the turning on of streetlights are necessary. The street lights in the residential areas are not enough. Adequate lighting is not present.	Bruhat Bengaluru Mahanagara Palike	Rahisha Sinan

3645	Mobility - Roads, Public transport	Repair of existing footpaths	6th Cross Rd, KEB Layout, Sanjaynagar, Bengaluru, Karnataka 560094, India	The entire triangular area of BEL Road, 80 Feet Road and Sanjay Nagar Main Road has seen a huge increase in vehicular traffic in recent times. The innumerable road humps (11 in a stretch of 2 kms on Sanjay Nagar Main Road), and potholes, haphazard parking, these roads have become a nightmare to drive. And to top it all, most of the footpaths are in shambles or occupied by parked vehicles or construction debris, the pedestrians are forced to walk on the road, thereby risking their lives and causing further traffic congestion. So the footpath repairs and maintenance is strongly required in this area.	Bruhat Bengaluru Mahanagara Palike	Hitesh Shah

5024	Safety and Crime	Increase police beat patrolling	111, 1st Cross Rd, Central Excise Colony, Sanjaynagar, Bengaluru, Karnataka 560094, India	Bangalore. Being a bangalorean and a localite i seriously feel this place is densely populated with traffic and traffic management is need of the hour. The biggest concern is about Vidya Sagar School that is located in Bhoopasandra. i see daily atleast a few hunderd cars parked on the main road which in turn create a havoc in this area. Umpteen requests to School authorities to manage the traffic at their school premises have gone in vain. The other concern is the Central Excise Layout 1st Main Road connecting Bhoopasandra Main Road to Sanjaynagara. This road is being used like a National Highway and motorists speed like they are driving in freeways as this road is broad and wide, similar situation on 1st Cross of Central Excise Layout which is used as a parallel road to Bhoopasandra Main road to navigate to Sanjaynagara. What surprises me is even though there is a children's park @ 1st Cross and daily nearly 30-40 kids play in this park of 1st Cross Central Excise Layout, motorists don't even care about the children and since it's a residential area i strongly	Bangalore City Police	Jayanth

4598	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	JP Nagar	There are few pockets on Sarakki main road that are being used by residents and shopkeepers to dump waste. BBMP engineers need to educate residents and shopkeepers to keep the road clean. Not dump their waste on the road. This causes inconvenience to people walking on the road and also hampers the movement of people to their shops.	Bruhat Bengaluru Mahanagara Palike	Prashanth

7152	Mobility - Roads, Public transport	Repair of existing footpaths	894, 22nd Main Rd, 2nd Phase, J P Nagar, Bengaluru, Karnataka 560041, India	The foot paths in JP Nagar Phase 2 are in pathetic condition. Abuse by vehicles indiscriminately driving or parking on them and repeated digging followed by no repair by BBMP and other authorities have rendered them in deplorable shape in most instances. Roads have recently been asphalted in the area, but the footpaths, almost a lifeline for hapless pedestrians considering the dense and often recklessly driven traffic, have been completely neglected. Shops and commercial establishments in the area like Reliance, Damro Furniture, Bata show room and Brewesky Bar, Vinayaka Coffee Moments restaurant have illegally flattened road curbs and constructed cement ramps on the foot paths to permit vehicles to drive up and park on them. This is nothing short of a travesty of the basic rights of pedestrians and is completely illegal for which BBMP must be held accountable. Footpaths need to be done up for safe commuting by pedestrians and road curbs need to be reinstated and raised appropriately in places where they have been flattened by the big shops in the area. Shops must make parking arrangements in basement or other areas and not the foot path. This may please be surveyed and budgeted for urgent attention.	Bruhat Bengaluru Mahanagara Palike	Ravi Burli

2832	Environment	Beautification of medians/circles	Santaclara Aparts,18th main,3rd Cross, 4th T Block	The 18th main road is in a very bad state in particular towards the southern side at the confluence of 80 ft road is in very bad in state due to following reasons.This was brought to notice many no of times but in vain.I earnestly request the authorities to take necessary steps in making the environment clean. RESONS:1. Mainly due to accumulation of Garbage thrown near the junction from nearby areas and collection & distribution of the same in BBMP trucks throughout the day. The stink and parking of the trucks in the area make life miserable for the passers who do not have proper pedestrian path even if is there it is unusable because of commercials tigon of the area. 2. Adding woes to the worse condition the either side of the junction is busy with Public activity.ie.oneside is the Vajpayee Bus stand and the other side is the Public toilet. 3.Further up from the junction is the warehouse of Hero Motors where loading & unloading of two wheelers take place. 4.Furthur up is the area of temples buzzed with day to day activities. 5. The 18 th main road is always busy with Vehicular traffic because of its connectivity to 4th Block &Jp Nagar.This traffic is multi folded because of Bus traffic due to the New Bus stand. 4213	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	36, 12th Main Rd, 4th Block East, KV Layout, Jayanagar, Bengaluru, Karnataka 560011, India	Hello, Before tarring the roads, first we should Identify the Drainage system for Rain water flow from roads. We should find the holes of all these drainage beside roads. The tarring of roads should be done in such a way that, there should be slope done for Rain water to go to the edges and enter the drainage through the Holes provided (Identified). The Center of the Tarring should be thick and at the edges it should be slope. This way, the roads remain as they are for atleast 5 years. I have seen many times, the labour's wont be having this knowledge and they just put the Tar and go. If this care is taken, need to worry much about withstanding. Please reduce the travel time or Provide alternate bus route to electronic city for people travelling towards electronic city. (Traffic density reached more than saturation at udupi garden, Silk board and Bommanahalli). 2) Excessive vehicle honking has become norm while waiting for signal to go green. Kindly discourage and control it. 3) Walk from Jayanagar flyover to Ragigudda has become impossible without giving money to Transgenders as they come in group and often attack us verbally if we intend not to give each and every time. I have also seen transgenders demanding money from people in vehicle struck in traffic. Please make travelling more safer. Provide transgenders alternative source of source which can also bring respect to their society. 4) Multiple 600 number buses come together (Observed minimum 3 buses arrive to ragigudda bus stand at 7.50, 8.50, 9.50 and so on). 3673	Mobility - Roads, Public transport	Installation of traffic lights	Marenahalli Flyover, Phase 3, J P Nagar, Bengaluru, Karnataka 560041, India	The present position of traffic lights below Jayadeva flyover (in fact whole of Bangalore) is wrong. 4065	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	4th Main Rd, KSRTC Layout, 2nd Phase, J. P. Nagar, Bengaluru, Karnataka 560078, India	No proper waste collection box. People dumb all wastes down the streets and roads. No proper collection of waste debris and there's no proper cleaning of streets.	Bruhat Bengaluru Mahanagara Palike	Sathish
4141	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	1502, S End B Cross Rd, KSRTC Layout, 2nd Phase, J P Nagar, Bengaluru, Karnataka 560078, India	Sweeping of roads are not carried out regularly. Aged people are posted in my area with the result sweeping is done once 20 days. My request is transfer these workers who here from past 20 years, to a new area and bring in new people, let them have a change. There are some dark spots behind Bangalore Central, 9th block requiring lighting points. Solid waste is not removed thoroughly and also garbage is falling out of trucks while on the move. Roads also need to be asphalted. I suggest a visit to the areas would be better for appraisal in person in the presence of concerned officials.	Bruhat Bengaluru Mahanagara Palike	Jnthimmaiah
4294	Mobility - Roads, Public transport	Construction of new footpaths	16th Cross Rd, Phase 4, J. P. Nagar, Bengaluru, Karnataka 560076, India	Need new footpaths. The existing footpaths are pathetic. I have submitted many complaints here but are closed without any work and without my consent. Little hope that iChangeMyCity is helpful!	Bruhat Bengaluru Mahanagara Palike	Poorna Chandra
4296	Mobility - Roads, Public transport	Introduction of new bus routes	16th Cross Rd, Phase 4, J. P. Nagar, Bengaluru, Karnataka 560076, India	Need buses from JP Nagar 4th or 3rd phase to Kanakapura road. No buses to even Sarakki junction exists. 4593	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	plot no, 45/1 45th cross j p nagara, 2nd Phase, Bengaluru, Karnataka 560069, India	Recently we have shifted from Vijayanagar, Rpc layout to Jayanagar 9th block near Jain college, ward number 170. As i noticed, in Vijayanagar wastage collecting people use to come twice a day which includes sweeping the road one time..i.e., 8am and around 11am. But here in jayanagar, they wont come on a daily basis. By the time we come out of our house after their whistle with wastage itself they ll not be in the place, so fastly they ll move from that place. Sweeper ll come but she ll clean only where she drinks the tea daily and go. She ll not clean the entire street.	Bruhat Bengaluru Mahanagara Palike	Kanchana Km
6490	Environment	Maintenance of existing public parks/playgrounds	1683-1688, 17th Main Rd, KSRTC Layout, 2nd Phase, J P Nagar, Bengaluru, Karnataka 560078, India	Childrens Play Area gate always remain closed, People has to enter from small fence opening in the back. Also there is no dustbin or maintenance in this play area which is making it more dirty day by day.	Bruhat Bengaluru Mahanagara Palike	thinksachin
6491	Environment	Beautification of medians/circles	8th Main Rd, 3rd Phase, J P Nagar, Bengaluru, Karnataka 560078, India	Most of the circles in JP Nagar has illegal hoardings, banners, Broken wires and sticked paper advertisements. These make circles look very dirty & clumpy.	Bruhat Bengaluru Mahanagara Palike	thinksachin

390	Sanitation	Maintenance of sewage lines	Horamavu Agara Main Road, Mallappa Layout, Hennur Gardens, Bengaluru, Karnataka 560043, India	Chelikere lake near babusapalya has become a major breeding place for mosquitoes due to lack of maintenance and untreated sewage entry the lake from the surrounding areas. This has led to increase in dengue cases in the locality and also making the environment very unpleasant. I kindly request the authority to clean up the lake and make a park around it which can be used by the residents in the locality keep the health of people and the environment in mind. THANK YOU	Bangalore Water Supply and Sewerage Board	Sailesh M
420	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	Banjara Layout	Roads are not provided with Storm Water Drains of adequate specification and gradient. Many Roads in Layouts are not tarred, and Asphaltting is being selectively done without consideration for Layouts in existence before BBMP acquired jurisdiction.	Bruhat Bengaluru Mahanagara Palike	Alex Thomas
435	Mobility - Roads, Public transport	Increase frequency of buses	Banjara Layout	The BMTC Bus Service into Banjara Layout is operating on restricted timing. The timing and frequency should be increased. Due to narrow roads and single - point entry and exits, BMTC should use Mini_Buses for the Banjara Layout Service as frequent traffic jams take place. A service should be added to connect Banjara Layout to Hennur that can be done by extending a current service to Banjara Layout.	Bangalore Metropolitan Transport Corporation	Alex Thomas
436	Mobility - Roads, Public transport	Construction of new footpaths	Banjara Layout	There is not even ONE footpath in Banjara Layout. BMTC Bus Route road must be provided with covered foot paths.	Bruhat Bengaluru Mahanagara Palike	Alex Thomas
437	Mobility - Roads, Public transport	Construction of new bus shelters	Banjara Layout	There are no Bus Shelters in Banjara Layout. New Bus Shelters must be provided at least at two points inside Banjara Layout.	Bruhat Bengaluru Mahanagara Palike	Alex Thomas

439	Mobility - Roads, Public transport	Lane marking and Road signages	Banjara Layout	Only a few Road Signages exist in Banjara Layout that have been provided by Residents Welfare Association(RWAs). These are NOT BBMP Signages. BBMP Must provide standard Road/street signs. Traffic Signs also need to be installed. The main road needs Speed Barrier Humps on three locations to reduce the break-neck speeding of Motor Cycles inside the Layout.	Bruhat Bengaluru Mahanagara Palike	Alex Thomas
440	Mobility - Roads, Public transport	Increase frequency of buses during non peak hours and late night.	Banjara Layout	Banjara Layout is a residential area housing a large number of IT Professionals who return at late nights. BUS ROUTE into Banjara Layout must be stretched into Late Night, to assist these returning employees.	Bangalore Metropolitan Transport Corporation	Alex Thomas
442	Mobility - Roads, Public transport	Provision for parking	Banjara Layout	Banjara Main Road is currently facing heavy traffic due to construction of apartments, water-tankers and private cars. The few shops at either ends of Banjara Layout have no parking facility causing blocking of Traffic. Dedicated marking and slots need to be provided at these points near Shopping areas.	Bruhat Bengaluru Mahanagara Palike	Alex Thomas
446	Solid waste management	Build composting units	Banjara Layout	Banjara Layout has many vacant sites that are being used for dumping garbage. The Horamavu Agara Lake is also receiving garbage that is thrown into the lake. A Composting unit positioned inside the defunct STP near the Horamavu Agara Lake , on the Agara _ TC Palya Road will help combat dumping of garbage.	Bruhat Bengaluru Mahanagara Palike	Alex Thomas
447	Water Supply	Provision of a new water pipeline	Banjara Layout	There is no provision for Cauvery Water supply to Banjara Layout. This must be Budgeted for as it is a rapidly urbanizing area with large number of residential clusters	Bangalore Water Supply and Sewerage Board	Alex Thomas
448		Maintain cleanliness of streets (sweeping, removal of debris)	Banjara Layout	Currently no sweepers are assigned by BBMP to Banjara Layout--occupying an area of 3.5 Sq KM. Please assign Sweeping of the Main Thoroughfare ie. Banjara Layout Main Road.	Bruhat Bengaluru Mahanagara Palike	Alex Thomas

451	Solid waste management	Require regular Door to door garbage collection	Banjara Layout	The Door-to-Door Garbage collection is limited to Twice a week. This frequency must consistently be increased to a daily basis, to prevent dumping of organic waste.	Bruhat Bengaluru Mahanagara Palike	Alex Thomas
456	Sanitation	Construction of storm water drains	Banjara Layout	All storm water drains have two-inch granite slabs as their sides, positioned by gravity. These need to be re constructed with Stone-block Masonry OR with RCC channels as per standard specifications. The existng storm water drains have collapsed and have allowed road sections to subside increasing the need for additional budgeting for repair of roads due to washed-away Tar Coat or subducted road segments.	Bangalore Water Supply and Sewerage Board	Alex Thomas
458		Construction of sewage lines	Banjara Layout	Currently NO sewage lines have been provided inside Banjara Layout. This 3.5 Sq KM area has one Lake (Horamavu Agara Lake) and one defunct STP for treatment of effluent and sewage. New Seqwage lines need to be constructed as the area is rapidly Urbanizing and large clusters of residential Layouts are getting formed inside Banjara Layout.	Bangalore Water Supply and Sewerage Board	Alex Thomas
459	Sanitation	Repair of broken storm water drains	Banjara Layout	A large area of Banjara Layout has original temporary Storm Water Drains that have broken down and need repairs. The repaired sections should be constructed to new specification with correct gradient and RCC/ Stone Masonry sides.	Bangalore Water Supply and Sewerage Board	Alex Thomas
461	Public health	Fogging and Pest control	Banjara Layout	Banjara Layout has no proper drainage due to lack of proper storm water drains and collapsed/silted Storm Water drains. This leads to large puddles infested with mosquito larvae. The Horamavu Lake also is a source for Mosquito breeding, causing swarms to exist in the entire Locality. Regular Defogging measures , and treatment of water-surface of Agara Lake with larval-growth inhibitors (Fish) are urgent requirement.	Bruhat Bengaluru Mahanagara Palike	Alex Thomas

466	Electricity & Power	Ensure efficient and uninterrupted power supply	Banjara Layout	wires. These wires frequently come undone during windy conditions. These unprofessional methods need to be replaced with Split-Bolt connections to ensure clean uninterrupted power distribution. Due to inadequate monitoring of growth of illegal small scale Industries inside Banjara Layout, fluctuations in Power Supply is observed, due to illegal Welding work using tapping from Domestic Lines, and use of heavy Industrial wood-planers. Transformers do not have designated space for installation, with Residents being asked prior permission to install Transformers which is invariably refused. BESCOM must issue guidelines on where and how Transformers are to be located and STO asking for permission of individual residents. More Transformers are required to be installed to combat Low and fluctuating voltage Power Supply in the rapidly urbanizing Banjara	Bangalore Electricity Supply Company	Alex Thomas
475	Environment	Construction of public parks/playgrounds	Kalkere-Agara Main Rd, Balaji Layout, Horamavu Agara, Horamavu, Bengaluru, Karnataka 560016, India	There is NO Park provided in Banjara Layout. As there is a large Lake nearby--Horamavu Agara Lake-- create a public Park around the Lake so that both purposes--Lake development and Park provision can be done without need to search for Land. Include a theme park in the development plans so that the equipment can be maintained through ticketing of entry and for the rides.	Bruhat Bengaluru Mahanagara Palike	Alex Thomas

479	Safety and Crime	Increase police beat patrolling	Banjara Layout	Banjara Layout Main Road is home to a large number of Construction activity of apartments. A large population of Migrants work here. Also, an infamous Bar is situated next to the Om Shakti Temple, both understood to be managed by the same person. A Police Chowki is needed inside Banjara Layout, as the Layout has an extent of 3.5 Sq KM, has only two entries with both having a Railway Crossing preventing deployment of Police personnel rapidly from the Hennur Jurisdictional Police Station located 2 KMs away, on the other side of both access roads blocked by the two Railway Level Crossing--at Horamavu and at BabusA Palya.	Bangalore City Police	Alex Thomas
480	Public Utilities and services	Construction of public toilets	Banjara Layout	For a large Layout locality like Banjara Layout with a space of 3.5 Sq KMs, there are NO Public Toilets. A Public Toilet is required near the Bus Stop of Om Shakti Temple and one at Gandhi Statue where a large number of Commuters congregate to catch Buses. A Third is required near the Horamavu Agara Lake Bus Stop.	Bruhat Bengaluru Mahanagara Palike	Alex Thomas
481	Environment	Maintenance of saplings/trees	Banjara Layout	Latrge number of trees were planted along Banjara Layout Main Road. Most have been cut down by BESCOM during a recent Tree-Cutting drive. However, alternate planting on the side away from Electricity Lines was not done. Existing Trees need manure and pruning. New Tree saplings need to be planted.	Bruhat Bengaluru Mahanagara Palike	Alex Thomas
482	Public Utilities and services	Maintenance of government schools, colleges, vocational training institutes	Banjara Layout	There are no cultural outlets in Horamavu. Nor are any Lakes or Parks catered to. A Public Library and reading room with good quality Magazines, Latest Books etc could be set u[p in Revenue Land for bringing up the habit of reading among children resident here. 3270	Mobility - Roads, Public transport	Increase frequency of buses	Nanjappa Garden, Horamavu, Bengaluru, Karnataka 560043, India	Frequency of buses for the normal public is very low after 5.45 pm on the outer ring roads. Only AC Buses from IT Parks are plying up and down at this time which is not allowed to be used by normal public	Bangalore Metropolitan Transport Corporation	Esaf Bangalore
3271	Environment	Construction of public parks/playgrounds	Kalkere Main Rd, Hormavu, Horamavu, Bengaluru, Karnataka 560043, India	The park in BBMP office hormavu is not functioning and not able to access. There are lots of children who play on the roads and streets. It is necessary for the children for them to have a safe place.	Bruhat Bengaluru Mahanagara Palike	Esaf Bangalore
3287	Solid waste management	Require regular Door to door garbage collection	Hoysala Nagar, Horamavu, Bengaluru, Karnataka, India	Hi , Nowadays regular door to door garbage collection is not happening and previously they used to come in hoysala ngr 3rd main 7th cross. They r not coming into 7th cross..kindly take necessary steps and instead of coming after 11am plz make it into 7.30 am since many of us going to office and nobody will be there in home as well	Bruhat Bengaluru Mahanagara Palike	nimaiiorama
3561	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	Vijaya Bank Colony Extension, Kallumantapa, Horamavu, Bengaluru, Karnataka 560043, India	The total area affected due to garbage lying down besides the roads and no regular garbage collection van coming on daily basis	Bruhat Bengaluru Mahanagara Palike	Mahesh
3562	Water Supply	Provision of a new water pipeline	Vijaya Bank Colony Extension, Kallumantapa, Horamavu, Bengaluru, Karnataka 560043, India	This area does not have kaveri water connection since from many years. Previously this area was known to be outskirts of bangalore but now it has become within the city but still nobody given attention for water connection as we are renting tanker for daily use of water	Bangalore Water Supply and Sewerage Board	Mahesh

3631	Safety and Crime	Increase police beat patrolling	Hennur - Horamavu - Jayanthinagar Rd, Hormavu, Horamavu Agara, Horamavu, Bengaluru, Karnataka 560016, India	There is a lake road which connects the Horamavu (Jayanti Nagar) with Horamavu-Agara. But currently it seems its very difficult to move on that road alone. 1. There are lorries carrying sand or JCB are always standing there and cause heavy traffic jams. Also these people gives a different look to all girls which may not be safe at some point of time. 2. There is a MRP shop which sells alcoholic drinks. All kind of drunkards comes and creates very unpleasant scenes in the roads. How we are allowing people to drink in the roads. How a family person would move. The vehicles are parked blocking the other roads. 3. Moving forward there is no enough street lights which is again very dangerous to cross as the lake is just adjacent to the street.	Bangalore City Police	Achin
3699	Sanitation	Construction of sewage lines	Flower Garden Rd, Hennur Gardens, Bengaluru, Karnataka 560043, India	Flower Garden road- Babusab palya. The drain work has been stopped midway since last 6 months. Please complete it.	Bangalore Water Supply and Sewerage Board	subhash
3865	Sanitation	Construction of sewage lines	Banjara layout, Horamavu	There are no UDG facility all the toilet water is left to the open drainage which is causing too many problems.	Bangalore Water Supply and Sewerage Board	Vg.shivakumar
3866	Environment	Cleaning and rejuvenation of lakes	Banjara layout, Horamavu	There is a big lake of horamavu which is not maintaining by anybody. And more over debris is dumping by many builders which they are closing the lake.	Bruhat Bengaluru Mahanagara Palike	Vg.shivakumar
3870	Water Supply	Provision of a new water pipeline	Banjara layout, Horamavu	There is no water supply to my layout. All depending on the bore well. My bore well got dried up. So I implemented rain water harvesting. This worked for 2 years and that again got dried up due to too many bore wells digging surrounding my house. At least make rain water harvesting compulsion to each and every house irrespective of whatever the size of house.	Bangalore Water Supply and Sewerage Board	Vg.shivakumar

4031	Water Supply	Provision of a new water pipeline	9, 5th Main Rd, Coconut Grove Layout, Horamavu Banaswadi, P&T Layout, Bengaluru, Karnataka 560043, India	There is No water Supply in this area even though we paid the BWSSB Three years back.	Bangalore Water Supply and Sewerage Board	Krishna
4077	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	Nanjappa Garden, Horamavu, Bengaluru, Karnataka 560043, India	Main Horamavu road from ring road singal to rly crossings condition isn't in good shape.	Bruhat Bengaluru Mahanagara Palike	R.krishnan
4160	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	Flower Garden Road, Prakruthi Township, Bengaluru, Karnataka 560043, India	There is a lengthy stretch where it's completely mess on the flower garden road. It's being hearing the work of road will happen never see any progress .It would be helpful get this work done asap	Bruhat Bengaluru Mahanagara Palike	Mr. Ranjith
4161		Maintain cleanliness of streets (sweeping, removal of debris)	Flower Garden Road, Prakruthi Township, Bengaluru, Karnataka 560043, India	It is been seen where ever free place there the garbage is dumped make it a priority to place a board not to dispose waste and clean that area and make sure the waste are not dumped .No responsible person visit or take due action for it	Bruhat Bengaluru Mahanagara Palike	Mr. Ranjith
4201	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	CBR Prakruthi, Flower Garden Rd, Prakruthi Twp, Bengaluru, Karnataka 560043, India	The road from Ganesha temple towards Prakruthi Township (BR Ambedkar Road) is completely uneven and unfinished, completely unfinished, impacts business development, causes inconvenience to all residents of apartments in that road. Every year it is said BBMP has started the work, with all lame excuses like Drainage etc. Please fix our road at your earliest.	Bruhat Bengaluru Mahanagara Palike	Sibir
4236	Solid waste management	Require regular Door to door garbage collection	Kyalasanahalli, Bengaluru, Karnataka 560077, India	Garbage! There is no identifiable system for garbage disposal in place for this area. Garbage is being dumped by people on the roadside near Ayyappa Temple. Not a pleasant sight! BBMP: please look into this problem and work out a viable solution.	Bruhat Bengaluru Mahanagara Palike	Anthya Madiath

4263	Water Supply	Provision of a new water pipeline	Chellikere, Hennur Bande, Kalyan Nagar, Bengaluru, Karnataka 560043, India	We have been waiting for years for implementing Cauvery Drinking water for Chellikere. We have been paying taxes to BBMP but no news for laying pipes in 1st Cross Road, Church Street	Bangalore Water Supply and Sewerage Board	Vinu Varghese
4396	Mobility - Roads, Public transport	Construction of new footpaths	Horamavu Agara Main Road, Hormavu, Horamavu Agara, Horamavu, Bengaluru, Karnataka 560016, India	The location is the road that connects the Jayanti Nagar to Horamavu Agara. There has been new apartment coming up from 'Mirabolis'. There lorry movements makes the road very dirty (including of mud, dust etc) and that has covered the footpath also. Would request you to take strict action against Mirabolis and also provide footpath so that we can walk in a dust free road.	Bruhat Bengaluru Mahanagara Palike	Achin
4399	Environment	Maintenance of lake surroundings e.g jogging tracks, landscape etc	Gulmohar layout, 3, 3rd Cross St, Horamavu Agara, Horamavu, Bengaluru, Karnataka 560016, India	There is a lake in Horamavu. The lake water is not cleaned. We can build the jogging track and clean the lake water which will give enough space for us to breath. Also as there are lot of construction work going on, it has been observed that they throw there waste in the lake. Creating of jogging track and small park including the street light will make this place more pleasurable to live.	Bruhat Bengaluru Mahanagara Palike	Achin

5277	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	Chelekere Main Road, Chellikere, Meganahalli, Kalyan Nagar, Bengaluru, Karnataka 560043, India	We are in 21st century, but our roads are absolute sad story even if compared with the quality of streets in medieval times. The reason is that there are no one to be held responsible. It is not that the roads are not repaired, but the quality is grossly compromised to aid self gains - this is no secret. The roads these contractors lay are not good for even 3 months, how can this be possible? There are people who acquire back pains, fall out on the road, get vehicles damaged, etc., due to such irresponsibilities. The administrators can show to the people they are honest and committed, by implementing a legal redress system by which we can hold the responsible people accountable for the damages suffered physically on them selves as well as on the vehicles. We are asking this because we have paid road tax, and hence paid customers entitled for safe roads.	Bruhat Bengaluru Mahanagara Palike	Chris

Bangalore Development Authority	Lokesh
3185	Environment	Construction of public parks/playgrounds	Market Road, Kowdenahalli, Ramamurthy Nagar, Bengaluru, Karnataka 560016, India	Ramamurthy nagar is becoming a crowded place without any basis facilities. Govt authorities need to control exploitation of land and reduce number of new houses and flats in the area. Instead buy vacant lands and try to convert them into parks or grounds for the kids of the future to be healthy. Need not be big parks, at least a double site can be converted with required amenities.	Bruhat Bengaluru Mahanagara Palike	Karthik
3237	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	NRI Layout, Bengaluru, Karnataka, India	4th main road of NRI layout whodunit opposite of hdfc bank is not tarred and left unattended for years. 3597	Solid waste management	Require regular Door to door garbage collection	Bengaluru, Karnataka 560016, India	The garbage collector's have to themselves collect the waste from each house, where each house can keep their garbage outside in a small bucket or concrete storage. Why iam saying is that, we have to keep on waiting for them to come and old people and others in the house have to keep running in the limited time given by the collectors. They can charge extra, i am fine with it but waiting for them and running increases anxiety and very troublesome.	Bruhat Bengaluru Mahanagara Palike	Venu

228	Mobility - Roads, Public transport	Installation of traffic lights	BEML Main Rd, LBS Nagar, Kaggadasapura, Bengaluru, Karnataka 560017, India	area near malleshpalys bus stand is very congested and daily commuters are facing traffic problem in that junction. Bus drivers also facing problem in that junction to make entry or exit to the bus stand. Concerned authority has to think of widening that area by some means and time being traffic signal is very much required for the smooth movement of traffic	Bangalore Traffic Police	Latha H C
242	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	Adithya Soigne, Kaggadasapura, Bangalore, Karnatak	The Road in front of Adithya Soigne has not been paved by BBMP since it was transferred to them by BEML couple of years ago. Even when it was with BEML, I think it was more of a mud road instead of a paved/tarred road.	Bruhat Bengaluru Mahanagara Palike	Vijaytawker

3155	Solid waste management	Build composting units	Ranganatha Layout, Chinappa Layout, Mahadevapura, Bengaluru, Karnataka, India	In Ranganatah Layout, #57, where I stay in front of my house only all the people dump their garbage regularly. There should be garbage disposal unit or mucipality should collect garbage from door to door. Like this people throw their garbage at every 200 mtrs.	Bruhat Bengaluru Mahanagara Palike	Deepak Nayak
3156	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	Ranganatha Layout, Chinappa Layout, Mahadevapura, Bengaluru, Karnataka, India	The road in front of my house has completely gone out of tar because of which heavy dust always gets accumulated on our vehicles when we park inside the gate of our house and it's a respiratory issue also. And thousands of vehicles pass through this road daily.	Bruhat Bengaluru Mahanagara Palike	Deepak Nayak
3157	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	Basavanagar, Bengaluru, Karnataka, India	The Basavanagar road opposite to Tata Sherwood apartments Arch is being used to dump Garbage and burn Garbage which is banned by High court. BBMP Truck teams are also supporting the burning of garbage. Request BBMP to clean this area of garbage and put a notice prohibiting garbage dumping and burning of garbage. 3624	Sanitation	Maintenance of sewage lines	Supreme Castle, 3rd Main Rd, Vignan Nagar, Doddanekundi, Kartik Nagar, Bengaluru, Karnataka 560037, India	3rd Main, L.N.Reddy Colony in Vignanagar was dug up 3 years ago to lay UGD (Sanitary) pipes. However, neither UGD connection has not been given to houses nor have they tarred the road after that. It has become a nuisance with slush when it rains & dust at other times. Worst part we are being charged Rs.700 every month in Kaveri water bill for the Sanitary (UGD) line which is not being used	Bangalore Water Supply and Sewerage Board	Kushalappa TJ
3654	Solid waste management	Require regular Door to door garbage collection	2nd Main Rd, Adarsh Vista, Doddanekundi, Kartik Nagar, Bengaluru, Karnataka 560037, India	The entire stretch from Vignanagar to Ramesh nagar..ie Basavanagar main road is so filthy..every other road and corner is filled with Garbage. BBMP Trucks don't come even to clean it. Everytime I log a complaint, I get a number to call. We have to keep calling that person every other day. Isn't it BBMP's job to provide a clean environment. The basic issue is that there is no door to door collection. All the eateries, individual houses dump it on the road. Near Shell petrol pump too the garbage is the largest, it stinks and opposite there is a darshini and bakery. What kind of hygiene is this ? Also garbage is being burnt on roads even plastic..Can we have a meeting with the concerned authorities rather than doing this complaint by complaint. Because this approach has not resulted in any improvements.	Bruhat Bengaluru Mahanagara Palike	Kamath
3655	Environment	Plant new tree saplings	56, 1st Main Road, Vibhutipura, Bengaluru, Karnataka 560037, India	There are some properties that are not occupied, not sure who owns them. rather than dumping garbage, it would be good if the area is cleaned and good tree sapling planted to provide some lung space to the area. 3658	Public health	Improve facilities in the existing Primary health centre/ community health centre	56, 1st Main Road, Vibhutipura, Bengaluru, Karnataka 560037, India	Please have some toilets built ..and have introduce fine for people using road side for relieving themselves. Inspite of the two toilets at basavanagar and rameshnagar, people still dont use them. Rather than having banners for birthday celebrations of politicians, banners to bring more awareness on health, environment and safety is needed.	Bruhat Bengaluru Mahanagara Palike	Kamath
3677	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	Basavanagar, Bengaluru, Karnataka, India	The Basavanagar Vignan Nagar road from Airport Road till BEML Gate used to be in great shape 2 years ago. Now the road has been dug up and full of dust , with no proper pavements. Request the authorities to make this road world class with pavements at least on one side . The stretch from Malleshpalya is still in great shape but before that has been partially destroyed. Pls plan this.	Bruhat Bengaluru Mahanagara Palike	Dilip Kumar P
3678	Mobility - Roads, Public transport	Lane marking and Road signages	Basavanagar, Bengaluru, Karnataka, India	Signages are almost completly missing in the stretch of Basavanagar Road from Airport road - It should be easily possible for BBMP to implement world class signages on the road , street divider markers , reflectors etc to make this area more livable. Request this be done with private partnership to ensure long term sustainance.	Bruhat Bengaluru Mahanagara Palike	Dilip Kumar P

3993	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	Vignan Nagar, Doddanekundi, Kartik Nagar, Bengaluru, Karnataka, India	I stay in kuvempu road, 10th cross. During the election time the workers flattened the road and even laid a layer of jelly stones and was promised saying it will be tarred in 2 months. Its been more than 6 months now and no progress because of which lot off fine dust all around our house and the premises. Hope with this complaint i see some progress.	Bruhat Bengaluru Mahanagara Palike	Anish Andavan
4040	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	Basavanagar, Bengaluru, Karnataka, India	There needs to be a better way to collect wet waste and disposable mechanism. The BBMP designated vendors are doing this on the road side and blocking the traffic. Also apartments who have have invested money in getting their own composting plant and implemented segregating waste at source should be insentivise by BBMP because these apartments are adhering to the rules and contributing to environmental well being. This will ease the congestion on and over the Bridge. Hope this suggestion, as many other, will not fall on the deaf ears of the concerned officials	Bruhat Bengaluru Mahanagara Palike	H S Padam

The layout is at least 60-70% occupied after so many residences were built in the last 2 years and now contains residents of all age. Residents have been experiencing extreme difficulty to walk or motor through the slurried mud roads leading to and within the layout. 2 wheelers have already had falls in the slippery roads and suffered minor injuries. Taxis refuse to drop until door step as they are afraid the wheel gets buried in the mud. Sometimes the tractors refuse to deliver water citing the unmotorable roads. 811	Mobility - Roads, Public transport	Introduction of new bus routes	Kasavanahalli Lake, Eastwood Township, Harlur, Bengaluru, Karnataka	This is a complaint on behalf of many citizens of Bangalore. There is no direct bus that comes from Marathahalli to Kaikondrahalli stop or from HSR to Kaikondrahalli. Also, from past few years, almost every traveler or commuter faces the problem of getting on rickshaw that goes on a meter fare. Now, it has reached to such an extent that even during the daytime and non-peak hours the rickshaws demand one-and-half even for the minimum distance. And if the passenger resides in the interior road apart from main road then they announce a rick fare that is really shocking ! Probably, there is no site where issues can be brought to limelight but this is really a alarming issue since if we as a passenger bargain over the fare then some rickshaw owners pose threat to us by using highly abusive words or by harassing. 4280	Public health	Fogging and Pest control	Banyan Tree Apartments, Chandana, Bengaluru, Karnataka 560103, India	Stop burning of plastic in neighboring slum areas.. The whole area is covered with this burnt air. We are all breathing this foul air. This is getting worse day by day. This open burning of plastic is simply dangerous to our health. When these are burnt in open, carbon monoxide, dioxins and furans are released into air. Carbon monoxide is a pretty well known poison and medical studies have linked dioxins and furans to cancer and respiratory disease. The old and the kids are very sick. Asthma is on the rise. 5009	Water Supply	Provision of a new water pipeline	Devarabeesanahalli Flyover, Bellandur, Bengaluru, Karnataka 560103, India	Providing basic drinking water for all the areas including 110 villages should be government's top priority. Also it should take over water tankers business from private unauthorized vendors and should supply on its own. While doing this it should also strictly enforce RWH to all the houses which can increase ground water in bangalore, and basic STP for all apartments. All water bodies should be kept clean and depth should be increased to hold more water. Only rain water and treated sewage should enter lakes. By taking these measures it is possible to solve city's water problem 100%.	Bangalore Water Supply and Sewerage Board	Ashok M G
5010	Electricity & Power	Ensure efficient and uninterrupted power supply	Devarabeesanahalli	Power cuts are frequent in outskirts of Bangalore. Actually it is due to insufficient grid capacity. Due to this huge amount of deisel is being consumed by generators causing pollution. Immediate priority should be towards upgrading the system. In addition to that all major tech parks and government buildings should invest in solar energy and reduce usage of BESCOM electricity. Even street lights also should use solar. 4212	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	Thubarahalli, Whitefield, Bengaluru, Karnataka 560066, India	1.Thubarahalli next to Vibgyor High School surrounding road (around .5Km) is pathetic ,non-livable, highest polluted due to mud road ,BBMP has not taken action last 7years and due to that surrounding all flats owners around more than apartment owners are suffering regularly , during rainy season it is pathetic. 2. Main Road towards Kundhanhalli Junction , then Marathalli Bridge and Marathalli market road doesn't qualify for a city road ,it is worst than any village . 3. Footpath from Kundhanhalli to Marathalli Bridge is another example to showcase the BBMP performance for what we are paying the road tax . Nobody can walk on that road and anytime any accident can happen due to open drainage . 4. Traffic police responsible for Kundhanhalli and Marathalli are highest incompetent , every alternate days they are changing their strategy , changing the traffic direction , blocking the most reliable traffic movement and everyday harshening the local peoples . Need expert support for traffic control .	Bruhat Bengaluru Mahanagara Palike	Sanjay D

4265	Sanitation	Construction of sewage lines	Purva Riviera Driveway, Lakshminarayana Pura, AECS Layout, Marathahalli, Bengaluru, Karnataka 560037, India	The BWSSB recently dug up the road but did not bother to repair it. Now we are unable to also get connections to the sewage as BWSSB is not allowing till water connection is there! Now the newly laid sewage lines will get filled up with debris for not being used. We are told that all residents need to collectively apply for the water connection to the layout. Meanwhile, the road condition after digging up the old roads, are in poor condition making it very difficult for the residents. The budget for road and drainage has been sanctioned but the authorities are expecting bribe to get the job completed. Businesses are paying taxes for last 15 years but till date the road has never been tarred. Some owners have used personal funds to do the road, drains and footpath as it affects their business. Illegal water tankers operate to make the condition worse and threaten residents if they protest.	Bangalore Water Supply and Sewerage Board	Arunava Sarker

4503		Ensure efficient and uninterrupted power supply	113, Pragathi Layout, Doddanekundi, Kartik Nagar, Bengaluru, Karnataka 560037, India	The power cuts are very untimely and unruly. Most of the day there is no power at all. People unlike me who live in apartments are fortunate enough to have the generator supply advantage, but those who do not this severe power cuts become very difficult. Sometimes it takes so long for the power to come back that even apartments have to switch their generator supplies, causing difficulty. 5092	Water Supply	Regular supply of water	Chinnapanna Halli, Bengaluru, Karnataka 560037, India	Its been a routine now, that I have to post a complaint every week for a supply of cauvery water. Expect 1st , 2nd , 3rd & 4th cross of Doddanakundi Extension, Chinnapanahalli all other cross gets water weekly once with out any fail on time. Tried reaching couple of officials as usual no response. Tried reaching the line man who just gives false promises but never fulfills. But I Appreciate BWSSB to come on time for meter reading and providing water bill for not supplying water. We also got some info that, lineman is tied-up with local water supply tankers, so that we are pressured to use tankers for our daily needs. Also he is providing cauvery water for flats/apartments on regular basis for some commissions. Finally it is effecting people like us who are independent houses, paying yearly tax on time, pay water bill without water and depending on water tankers mafia but dont get any benefits from this area officials and corporators and ward counselors. 4452	Electricity & Power	Ensure efficient and uninterrupted power supply	First Cross, Immedahalli Main Rd, Whitefield, Bangalore, Karnataka, India	The Immedahalli Main Road is almost clogged, there has been no improvement to the road and public amenities for quiet some time now. The streetlights do not exist, instead they are connected to the advertisements on the streetlights poles. The traffic management is very poor with signals still manually managed at Hope Farm Signal, Kundhanhalli and Brigade Metropolis which creates traffic congestion in Whitefield! Water Supply is still not connected to the residents, only the pipes are laid. Electricity supply is not regulated, the voltage fluctuates drastically throughout the day which is dangerous for the residents. Garbage Collection from Homes does not happen! Whitefield being the heart of IT development for Karnataka, Brings lots of revenue to the state and the country. The citizens pay one of the highest taxes in the country and they need to be treated as citizens who are proud to be a part of the city and not letting them post complaints of basic amenities & infrastructure. Let's get BDA to buy one of the empty lands and convert it into a waste processing plant. I am sure that such small scale units will go a much longer way in controlling the garbage than a centralised "one", even if we do not know we will ever have one. There are 2 "recycled items" collectors along the road and I am confident that if approached in the right manner, they would be pleased to run those centers.	Bruhat Bengaluru Mahanagara Palike	Kiran
3235	Electricity & Power	Ensure efficient and uninterrupted power supply	Spectrum Ambara Apartment, Whitefield, Bengaluru, Karnataka 560066, India	Let's rope in a private (if not BESCOM itself) of providing solar panels to the apartments / commercial buildings in this area. They can then draw the power for their distribution as well as for the occupants' use.	Bangalore Electricity Supply Company	Kiran
3236	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	1st B Cross, Upkar Layout, Whitefield, Bengaluru, Karnataka 560066, India	Current pothole covering looks to be a waste of taxpayer's money - again. It is just a facelift. We need to ensure all new roads are done correctly (with substrata of boulders of 8" rather than aggregates of 8" thickness!) as against what is happening now opposite Sigma Tech park on the right side. 3617	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	Channasandra, Bangalore	Broadening the roads at critical junctions, like Hope Farm, will help in reducing traffic congestion. There is some space on the sides of the road on the stretch from Hope farm to Channasandra (near the Hope farm junction), where this can be done easily.	Bruhat Bengaluru Mahanagara Palike	Arjun Roy
3937	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	DSR Green Vista Apartment, ITPL Main Rd, Upkar Layout, Krishnarajapuram, Bengaluru, Karnataka 560066, India	Tarring of the multiple roads across Kadugodi and Whitefield in a correct manner of having a firm substrata of boulders and then aggregates and tar on the top; unlike the current practice of filling 8" to 12" with only aggregates. It is this current practice that will surely only lead to unnecessary and easy / early damage of roads.	Bruhat Bengaluru Mahanagara Palike	Kiran
3947	Solid waste management	Build composting units	140/1, ITPL Main Rd, Upkar Layout, Whitefield, Bengaluru, Karnataka 560066, India	Utilise the many vacant government land in the vicinity of Whitefield to develop a composting unit that will handle garbage at this cluster level. On the long run, it will lead to employment as well as cleanliness, as well as do away with unnecessary transportation in the cities by these garbage trucks.	Bruhat Bengaluru Mahanagara Palike	Kiran
3956	Environment	Maintenance of lake surroundings e.g jogging tracks, landscape etc	Immadihalli Main Rd, Shyanubhog Subbaiah Layout, Chansandra, Bengaluru, Karnataka 560067, India	Varthur lake and other surrounding lakes have such tremendous potential to become useful green lungs as well as water bodies by these simple maintenance requirements as well as having a filtration plant at the lake to treat the water. We have to pay hefty sum of money to buy water from the Tanker lobbies. We pay property tax to BBMP. I don't know how BBMP is looking into taking care of our properties in lieu of the taxes that we pay. Road condition at Bhoganahalli road is very pathetic and can lead to major accident at any point of time if not fixed well. There was a temporary work done on the roads before the BBMP election which got washed away with a single rain. There was mud put into the potholes to fill them up. It was a total makeshift work just to capture in some votes. Post election there hasn't been any development of the area. 3636	Public health	Fogging and Pest control	350, 8th Cross Rd, Sanjay Nagar, Marathahalli, Bengaluru, Karnataka 560037, India	There are plenty of stray dogs at Marathahalli residential areas (Ward No 86). Every day morning around 4 to 5 they gather in one place and start moaning, thereby disturbing the residents. They also chase the people driving two/four wheelers and this has become a big problem. There are plenty of rats too in the residential areas of Marathahalli. Undoubtedly this is because of unhygienic atmosphere in the form of open drainage with waste materials like paper plates, old/used newspapers, scraps of clothing, polythene bags, plastic bottles, chocolate/biscuit wrappers etc. are floating on it, overflowing sewerage water, mounds of garbage etc. The rat population has been increasing very rapidly. Because of open drains, rats have easy access to residences and they make plenty of holes near residential areas, grounds, garbage dumping places, drainage lines and in all unhygienic surroundings and during nights they run around freely. They bite the fuel lines of vehicles and fuel starts leaking. They also cut electrical wires in the vehicles. This issue should be taken up on priority basis before it becomes unmanageable. 3656	Safety and Crime	Fire safety and prevention in public buildings (malls etc)	350, 8th Cross Rd, Sanjay Nagar, Marathahalli, Bengaluru, Karnataka 560037, India	Citizens of Marathahalli, especially office goers, students and senior citizens are finding difficulty in crossing the Sarjapur Outer Ring Road (Near Multiplex Theatre and MORE Super Market) from one side to the other because of very heavy traffic movement at all times. It is high time that traffic police go in for SKY WALK somewhere near Multiplex Theatre and More Super Market. This would certainly help the citizens to a great extent. Authorities concerned should realise the seriousness and importance for a sky walk here before major accidents happen while crossing the ring road. I have seen many times people wait for 10 to 15 minutes to cross the road from one side to the other because of continuous flow of heavy traffic. This reminds me the unfortunate and sad incident wherein a young girl student died while crossing the road near Esteem Mall, Hebbal sometime back. Here (Marathahalli) the situation is so bad and accidents are waiting to happen anytime. Therefore, immediate action is required.	Karnataka State Fire and Emergency Services	Santhanam

4184	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	Marathahalli, Bengaluru, Karnataka 560037, India	As we all know Marathahalli is crowded area where thousands of people walk on this roads, If we see the service road they are in worst condition and people who walk on road have to cover the face and walk to avoid dust pollution, there is lot of dust that flow in air as most of the vehicles have to go on these mud/unpaved roads. In this area i am staying from last 3 years, I see service providers like internet vendors\power supply\Telephone connection people dig's the road without any planning and they don't do tarring of roads after their work. After one or two months government will do tarring of road and after another month other service provider will come and repeat the same process, this is happening from past 2 years and i am really not sure how government is approving the same. As this is good platform for common man to address the issue and put in-front of government, hope this will be treated as serious and take this to respective officials. 4966	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	Marathahalli residential areas (Ward No 86) have almost become a living hell. The residents here are staring at death traps on roads. Loose gravel scattered around due to frequent movement of water tankers and school buses on these roads pose a threat to smaller vehicles and the thick clouds of dust are suffocating. The deep potholes on the residential roads give us jitters. When it rains thick slippery slush coats the roads, making it almost impossible to walk or ride 2 wheelers. Residents here are tired of complaining to the civic authorities to asphalt the roads which has not been done for the past many years now. Numerous complaints to BBMP have only fallen on deaf ears. 4394	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	15th Main Rd, Shakthi Ganapathi Nagar, Basaveshwar Nagar, Bengaluru, Karnataka 560079, India	The entire stretch from Kamalanagar market to water tank is filled with potholes and craters. The roads were neatly asphalted but as usual, BWSSB and other telecom companies have dug up the roads leaving them in bad shape. Added to this some residents dig up the roads for their water connections and do not ensure that they have been filled up properly. This causes lot of inconvenience to pedestrians and motorists alike. Request the concerned BBMP authority and the Corporator to take immediate action.	Bruhat Bengaluru Mahanagara Palike	Dinesh M S
5157	Mobility - Roads, Public transport	Provision for parking	Basaveshwara Nagar Water Tank, SBI Staff Colony, Basaveshwar Nagar, Bengaluru, Karnataka 560079	Why not legislate compulsory parking on vacant sites to help de-congest our roads and footpaths. As Bangalore's vehicle ownership increases, we find BOTH sides of residential localities have parked cars thereby making it difficult to walk and drive through these localities. If vacant sites are made compulsory parking, these roads would become more free. The owner would be able to earn a few bucks but more important, the site would become garbage free and serve a useful purpose to the community for as long as its vacant. Typical 34x40 sites would easily accommodate 6 cars and several two wheelers.	Bruhat Bengaluru Mahanagara Palike	Ramesh Viswanath

One more cause of potholes being formed are the patchwork done. The roads when tarred completely once stay so for a longer time than the patchwork tarring. It can also lead to safer roads rather than again pressurising the citizens with extra rules such as the pillion driver-helmet ones.	Bruhat Bengaluru Mahanagara Palike	Srikant M Bawale

	Solid waste management	Require regular Door to door garbage collection	9th Cross Rd, Malleshwaram, Bengaluru, Karnataka 560003, India	This is a long standing complaint. garbage is thrown 24/7 in front of the apartment & this is causing lot of health problems .The whole area rots (because of the rain)This is mainly because of the illegal market who have occupied the footpaths completely.& even public throw garbage there since there is no proper door to door collection. I have been complaining regarding this but in vain. BBMP officials are not taking any stict action.I am a senior citizen & also majority of the people who live in this apartment.I am feeling helpless & need help to solve this grave danger to public health. 5159	Mobility - Roads, Public transport	Provision for parking	Vasavi Temple Rd, Malleshwaram, Bengaluru, Karnataka 560003, India	Why not legislate compulsory parking on vacant sites to help de-congest our roads and footpaths. As Bangalore's vehicle ownership increases, we find BOTH sides of residential localities have parked cars thereby making it difficult to walk and drive through these localities. If vacant sites are made compulsory parking, these roads would become more free. The owner would be able to earn a few bucks but more important, the site would become garbage free and serve a useful purpose to the community for as long as its vacant. Typical 34x40 sites would easily accommodate 6 cars and several two wheelers.	Bruhat Bengaluru Mahanagara Palike	Ramesh Viswanath

3913	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	Padmanabha Nagar, Bangalore, Karnataka, India	11th cross road that starts from Eye Hospital and goes all the way to place where there is Sewerage, is one of the busiest roads. Yet the road and footpath are in very bad shape. There are empty sites that have become Garbage repositories diagonally opposite to Ravi gas agency. Many complaints have been made to BBMP over the last 1.5 years and yet the issue remains 1. 11th Cross is fully torn apart. They laid new water pipes about 1.5 months ago. Yet they have not fixed this road. 2. 11th Cross road needs to be evened 1st (esp section after uttarahalli road) and then tarred. Right now people walking on this street, are washed with dirt. 3. Remove some half dozen humps on 11th cross road (which is about 700 meters long). You can just have 2 road humps spaced 350 meters apart in important points ..like there is a hump next to School and Hospital which needs to be retained.	Bruhat Bengaluru Mahanagara Palike	sudhi

3913	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	Padmanabha Nagar, Bangalore, Karnataka, India	FOOTPATH 4. The footpaths need to be levelled, cleaned of debris and encroachments from Shops (advertizements, bonda shops, etc). Many senior citizens walk on this street. GARBAGE 5. Garbage needs to be cleaned in an empty site right next to the road opposite Ravi gas agency. The garbage is thrown very close to the road near this empty site. Once cleaned it is important to put a big Garbage bin so the issue is fixed permanently. Currently this place serves as a restaurant for cows, dogs and piegons. Big Hoarding of politician faces - makes the public space look ugly. 1. On the intersection of 11th cross and uttarahalli, a huge hoarding of politicians has come up recently. This needs to be removed. TRAFFIC INTERSECTION SIGNAL needed on 11th cross road and Uttarahalli road intersection. 1) This particular intersection has heavy traffic. Yet does not have a traffic signal. It is chaos and uncivilized traffic always at this intersection.	Bruhat Bengaluru Mahanagara Palike	sudhi

1333	Safety and Crime	Install surveillance cameras	Banashankari, Bengaluru, Karnataka, India	There is so much bribe practice in Banashankari taluk office to get our genuine caste certificates done. The office opens at 10.30 am, till 12.30 they just accepted 4-5 applications from the queue and remaining they were taking from back side with Rs.1000 as bribe. we were around 18-20 in the queue. Had to enter the queue at 8.15 am and our application was accepted at 4.15 pm. They will stop taking the applications by 4.45 - 5 pm sharp. They will take lunch break from 1.30 to 3 pm. Pathetic, shameless Government employees. When Government has so many damn rules for MNCs, Malls to have surveillance cameras, why the government first start by installing cctv camers in BDA, Taluk, all govt offices?? 4051	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	Tarring of pothole-ridden roads	The last time the road was tarred is 5 years ago. Now humps have been put up on every few metres in Hosakerehalli main road and near Hrishikesh vidyapeeta school. They are very high. The buses frequency during night times is very less including both 43b and 43c. REMOVE HUMPS AND MAKE ROADS WIDER.	Bruhat Bengaluru Mahanagara Palike	Shankar G
4059	Solid waste management	Tarring of pothole-ridden roads	Maintain cleanliness of streets (sweeping, removal of debris)	The waste from homes are thrown around in front of Raghavendra swamy temple and left days together. IT IS NOT A DUMP SITE. DONT DUMP GARBAGE ON ROADS EVEN FOR 1 HOUR. Also the roads are not cleaned and the sand on the road causes accidents. And please clean the lake. The smell is unbearable.	Bruhat Bengaluru Mahanagara Palike	Shankar G
4067	Sanitation	Provision for parking	Desilting of Storm water Drains	The hosakerehalli lake stinks and near KEREKODI the smell is unbearable. Stop drainage water flow into lakes. The health of people are seriously getting affected.	Bangalore Water Supply and Sewerage Board	Shankar G
4069	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	Increase frequency of buses during non peak hours and late night.	The number of buses during night is very less. The frequency of bus 43b and 43c should be increased. The only bus of 43b at 9:30pm is always full and then people are deprived of buses till next morning. Also the bus shelter is occupied by street vendors making it difficult for passenger to move freely.	Bangalore Metropolitan Transport Corporation	Shankar G

900	Mobility - Roads, Public transport	Installation of traffic lights	2E Cross, Sultan Palaya, Bangalore	The traffic in this area particularly during peak hours is horrendous! Buses, tempos, autos, school vans and cars madly compete for passage. Two-wheelers and autos are the worst offenders, driving dangerously without any concern for the safety of others or even themselves. Pedestrians are most at risk as crossing the road at such times is dancing with serious injuries or death. If traffic signals are installed with some police presence it would make the traffic more orderly and reduce the risk to pedestrians.		B. Radhakrishnan
922	Sanitation	Construction of storm water drains	2E Cross, Sultan Palaya, Bangalore	Storm water drains are missing on some of the side roads. Illegal constructions are often the cause. During heavy rain this results in pools of water collecting in front of houses. There are drainage manholes nearby but they are not connected to places where water pools. Such a pool collects right in front of my house and we have to wade through water till it evaporates. This takes days in the monsoon season!	Bangalore Water Supply and Sewerage Board	B. Radhakrishnan

954	Solid waste management	Require regular Door to door garbage collection	1176, 1st Cross Rd, Sultanpalya, Hebbal, Bengaluru, Karnataka 560032, India	The garbage problem in & around my locality in bangalore is ever increasing instead of getting resolved.Garbage is not being collected door to door on a daily basis which is prompting people to dump the garbage on road.The rains & dog menace are further aggravating the problem leading to dirty unhygienic roads which not only spoils the roads but also causal several health problems.I hache heard about various private Companies which can help in reducing the amount of waste or recycle it for better use.All they need is government support.I wonder why the govt is not tying with with these kind of companies & help to solve the garbage issue which is growing day by day which is converting our garden city to a garbage city.I want the govt to not only ensure regular collection of garbage but also to recycle & reduce the waste by collabrating with such companies instead of dumping the garbage into the land fill which causes many serious health hazards to the people staying around such landfills.Hope the govt takes this point into consideration.Thanks to change my city for providing such a platform. 1696	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	Appajappa Layout, Shampura, Kaval Byrasandra, Bengaluru, Karnataka 560032, India	Here's why it's important: A humble question to whoever knows the answers, please... ***** What is the duty of Elected Representatives and huge administrative officers and staffs of the territory? Is they are acting like Gods, sitting in their different worshiping places and people should visit them regularly with flowers, fruits and other pooja materials to please them for getting blessings to solve day today problems, which they are facing in their area. Why should people remind them about their duties, even though the concerned officials knows all problems which people are facing. Now a days common citizen are busy with their commitments and struggling hard to meet their day today expenses and how can they find time to go to officials, those who are invisible most the time, with meetings and their own other reasons. How can they inactive from their duties, after getting their allotted seats of power? Pity with the fate of common citizen!! Very confusing matter. Is there anybody to answer this please..... 2946	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	Sindhi Colony, Pulikeshi Nagar, Bengaluru, Karnataka, India	There is always garbage strewn around outside the storm water drain on Assaye Road (opposite Sindhi Colony 3rd Cross). There needs to be a more systematic and regular garbage collection as well as cleaning of the streets.	Bruhat Bengaluru Mahanagara Palike	Vinay Samtani
2951	Mobility - Roads, Public transport	Repair of existing footpaths	18, Assaye Rd, Sindhi Colony, Pulikeshi Nagar, Bengaluru, Karnataka 560005, India	The footpaths on Assaye Road are always in bad shape	Bruhat Bengaluru Mahanagara Palike	Vinay Samtani
3613	Sanitation	Desilting of Storm water Drains	Mosque Road, Frazer Town, Bangalore, Karnataka 560	The open storm water drain on Mosque Road stinks very much causing an unhealthy environment for residents who stay near and around the drain. The illegal sewage connections need to be checked and closed up.	Bangalore Water Supply and Sewerage Board	Parveen Sukumaran
3651	Mobility - Roads, Public transport	Construction of flyovers/underpass	18, Assaye Rd, Sindhi Colony, Pulikeshi Nagar, Bengaluru, Karnataka 560005, India	a road was laid next to gymkhana club to connect wheeler road and Assaye road. But the bridge across the storm water drain has yet to see the light of the day for more then 5 to six years. Now that road is used for Garbage trucks. It creates an unwanted traffic block for vehicles coming down the flyover. Innumerable bottlenecks across the city like these are a pointer towards the BBMP's apathy towards the City infrastructure. The BBMP is not even able to lay a proper Road Divider in so many places.	Bangalore Development Authority	Andrewvijayan
3955	Solid waste management	Require regular Door to door garbage collection	Pulikeshi Nagar, Bengaluru, Karnataka, India	Pls clear the road of all debris and ensure everyone segregates garbage.	Bruhat Bengaluru Mahanagara Palike	Fuzail Sait

4189	Mobility - Roads, Public transport	Repair of existing footpaths	1/6, Assaye Rd, Sindhi Colony, Pulikeshi Nagar, Bengaluru, Karnataka 560005, India	There is construction of an illegal structure on the footpath at fotoflash junction meanee tank road near ulsoor lake. This illegal structure has come up in the last few days, since 6th january 2016. If it is not removed, the local BBMP official must be held responsible for allowing illegal structures on the pavement and obstructing pedestrians and traffic movement.	Bruhat Bengaluru Mahanagara Palike	Olinda Timms
6271	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	Pulikeshi Nagar, Bengaluru, Karnataka, India	We need to pay attention to segregation of waste as well as cleanliness of streets.Often the PK's pick up the garbage but do not sweep the roads.They leave piles of debris at street corners. Also, the citizens must be educated to segregate. If we could provide them with buckets or Eco friendly bags that clearly indicate what type of garbage goes where it could be beneficial, both for the citizen & the PK's. Thanks! 1323	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	1460, 6th Cross Road, 4th Block, Dayananda Nagar, Rajajinagar, Bengaluru, Karnataka 560021, India	Just right in front of my house there is a big pothole. The road was dug for some purpose but was never fixed again. Due to the rain those potholes are being overfilled by Rainwater causing unnecessary incidents to occur. it is affecting the health conditions of the residents too. Actually It can not be considered as a road only, as it is a path full of mud and garbage. The complete dayananda nagar and Ramachandrapuram needs a good road and proper maintenance of the garbage. There are many building being constructed in front and near by dayananda nagar park which are throwing its material waste on roads leading to pathetic condition. Adding to it there are many bars around making it really dangerous for girls to walk around the areas. We needs few police there for patrolling so that the safety of girls is taken care off. 1473	Solid waste management	Build dry waste collection centres	5th Block, Rajajinagar, Bengaluru, Karnataka 560010, India	Waste Management is pathetic, People are dumping the daily waste in a polythene cover bags and leave it where there is open space which is inhabited, Some even dump it at a corner or extreme side on the streets and this is not picked up or ignored as waste collectors feels its not in there scope, I think a waste bin should be provided and should be placed outside of every door step or in some common place where people can dump and later being collected by the garbage collectors.	Bruhat Bengaluru Mahanagara Palike	Nishant Mehta
1485	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	5th Block, Rajajinagar, Bengaluru, Karnataka 560010, India	i have seen and experienced many unpaved roads which have huge potholes and the local municipality does a shabby workaround, like closing this with mud and stones which initially looks like serving purpose but its broken with in few days and makes it more worse and risky for the two wheelers especially, The small stones gets scattered and is prone to skidding and accident, One more thing the municipality does is a patch up work they patch up only the effected area and due to which the road becomes uneven and it makes the two wheelers ride very risky as change in the level can cause a risk of falling down. Instead they should fully spread the asphalt on the entire road to make it evenly repaired.	Bruhat Bengaluru Mahanagara Palike	Nishant Mehta

462	Public Utilities and services	Maintenance of public toilets	Srigandada Kaval, Annapurneshwari Nagar, Bengaluru, Karnataka, India	The present state of Public toilets remind one of scary houses which look deserted, with no proper lighting, no one to maintain and can only be noticed by the bad smell it emits and garbage around it. Workers allocated for the maintenance of each toilet should be assessed monthly on various criteria and remunerated apart from the money they collect from toilet users. There should be sign boards indicating the directions to public toilets on roads. Charges per usage can be displayed on notice boards.	Bruhat Bengaluru Mahanagara Palike	Sowmya

1689	Solid waste management	Require regular Door to door garbage collection	Revathi Nilayam, Annapoorneshwari Nagar, Annapurneshwari Nagar, Bengaluru, Karnataka 560091, India	Dear sir, There is huge pile of garbage accumulated in on main road, near st john school junction, annapooneshwari nagar . All residence are dumping on the road and it has become garbage mountain. BBMP has not cleaned and removed the garbage. The road looks horrible and its getting worse everyday. Garbage already getting into drainage which will clog the water flow. Kindly help to remove the garbage. Thanks Aravind Durgoji	Bruhat Bengaluru Mahanagara Palike	Aravind Durgoji
1986	Environment	Maintenance of lake surroundings e.g jogging tracks, landscape etc	Nagarbhavi, Bengaluru, Karnataka, India	Fundamental safety of pedestrians is completely lacking in my ward. Our pavements have been hijacked by vendors of food stuff, vegetable and fruit sellers, cement and hardware dealers, shop signs, furniture makers, two wheeler repairers, and even welders. Thus forcing pedestrians to walk on the traffic heavy roads and risk getting killed. Senior citizens and children are prone to this danger. Punitive action ONLY will inculcate discipline. Our citizens are notorious for NOT abiding by law unless they are fined for miscreancy. So, I would urge ward officers to take urgent punitive action by imposing fines on surprise checks on at least one day during the week. Let us create A Model Ward for the whole city and even the country to emulate. Our goal should be: Zero Pavement Encroachment. 4528	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	53, Laggere Main Rd, Muniswara Nagar, Hegganahalli, Bengaluru, Karnataka 560091, India	The connecting road from Rajiv Gandhi circle (Laggere 50ft road) to Kempegowda arch bus stop (Outer ring road) is in a very bad condition. The road was asphalted some time ago and was dug up to lay pipelines more than three years ago. Although it was re-asphalted, it was only a cosmetic makeover (only to get the funds i guess). Right now the road is extremely dusty and full of potholes. More than a lakh people use this stretch on daily basis. There is no footpath due to which accidents involving two wheelers and pedestrians are quite common. The children of two schools have to suffer from dust and noise and also accidents. Kindly take up this work on priority basis. I have noticed that complaints of this ward are neglected while complaints from other wards (about less serious issues) evokes instant response and resolution. Why this partiality? 545	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	BEML 3rd Stage, RR Nagar, Bengaluru, Karnataka 560098, India	Rajarajeshwari Nagar is overflowing with garbage and pot holes. It is unbearable as the air stinks and it aches to go out of home as there are potholes everywhere. It seems as if BBMP is actively sleeping as there is no permanent solution to the garbage disposal and it has been close to 3 weeks that a garbage collection vehicle has come here. I feel hopeless about the situation.	Bruhat Bengaluru Mahanagara Palike	Kn Bharath
891	Solid waste management	Require regular Door to door garbage collection	BEML 3rd Stage, RR Nagar, Bengaluru, Karnataka 560098, India	The garbage collection in our area is not at all regular. Sometimes they come for collection only once in a month. As a result people are dumping garbage in footpaths. I have complained regarding this issues in ichangemycity.org many times.	Bruhat Bengaluru Mahanagara Palike	Padmaja

568	Solid waste management	Build dry waste collection centres	Banaswadi, Bengaluru, Karnataka, India	1. Door to door collection should happen depending on Dry waste or Wet waste. 2. Dedicate some day in a week, where collection should be only dry waste and another day for wet waste. 3. Most of the time even if public segregate the waste, it will be dumped in the same tempo. 4. There should be a garbage collection center at each ward level, so that citizens who was not able to give to the tempo collection, can be directly go this centers, which will drastically reduce the garbage dumping in the roads. 5. Scientific Recycling units needs to be largely invested, so that the recycling should generate some level of revenue which can be shared to citizen. Which will encourage people to share the possible recyclable waste for some money and avoid dumping it on the streets.	Bruhat Bengaluru Mahanagara Palike	Vijesh

365	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	Richmond Rd, Richmond Town, Bengaluru, Karnataka 560025, India	Richmond Road at the Trinity Circle end is a stretch of degraded road, full of potholes and irregular surface and manholes protruding above the surface. The sidewalks are a mess with the lining tiles all broken, irregularly aligned and almost impossible to walk upon safely. Streetlights have missing bulbs making the whole environs unsafe.	Bruhat Bengaluru Mahanagara Palike	Tom.dr.mathew
1913	Solid waste management	Build dry waste collection centres	Lavelle Road, Shanthala Nagar, Ashok Nagar, Bengaluru, Karnataka 560001, India	Solid waste across all adjoining roads to Lavelle Road gets collected opposite the Airlines Hotel, it is heaps and heaps of rubbish which is lying open and swarmed with flies and crows. Usually the pickup is done in the late morning / afternoon when people are walking and it is extremely hazardous. The people who pick up the trash are also susceptible to diseases considering they dont take any precautions while piling the garbage into small autos. There should be a dry waste collection center for Lavelle and adjoining roads to cull this problem.	Bruhat Bengaluru Mahanagara Palike	Govind

3953	Mobility - Roads, Public transport	Construction of new footpaths	10, Primrose Road, Ashok Nagar, Richmond Town, Ben	Make the foot-paths walkable. One...it is not continuous , it is so narrow only one person can walk and every few feet there is total obstruction, making all pedestrians to continuously walk on the road braving the traffic. Widen the foot path and make the road one-way.	Bruhat Bengaluru Mahanagara Palike	V. Anil Kumar
4267	Mobility - Roads, Public transport	Lane marking and Road signages	Bangalore, Karnataka, India	Can we try this for ourselves that we will try following traffic rules. 1. Follow lane driving 2. Don't jump the signal lights 3. Don't ride on footpath 4. try giving respect to other riders and drivers 5. Let's appreciate what we have and start working from there to make it better and better.... FYI .. I don't live in Bangalore anymore but I Love Bangalore... I want it be beautiful...	Bruhat Bengaluru Mahanagara Palike	Ravi Kumar
4757	Mobility - Roads, Public transport	Provision for parking	Ashok Nagar, Bengaluru, Karnataka, India	Hi Could you please provide more parking facilities for people who park the vehicles on Markham road and Brigade road area, as people park their vehicles on all the parallel roads of Markham road. Due to this the residents of this area are finding it difficult to drive or ride on these roads as all bikes and cars are parked by people from offices, business and college students. This needs urgent attention as these roads to say these lanes are so short that if a car is parked on the road then another vehicle cannot pass. People park huge vehicles lock them and leave them and its a mess for the residents to move around. Even college students park their bikes without even bothered what place it is . People park, sit ,smoke and drink on these roads which is making it very difficult for the ladies to walk around the roads. A bigger and a better parking facility is required here so please provide it or if not please put no parking signs on the lanes so that it wont become such a mess for the residents of Markham road. 923	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	Vivek Nagar, Bangalore, Karnataka, India	There is a stretch of land adjacent to a park, which is being misused to dump garbage. This poses as safety threat for the residents around and also leads people defecating in open (Truly an eyesore!) and to miscreants using the space as a daily dope-joint and similar activities. We alert the residents in vain, not to dump garbage as we have a good garbage collection system in place in my street. It will be great if the authorities can erect a gate that can be kept under lock and have police patrolling to ensure the street can be garbage free. Thank you. A concerned resident.	Bruhat Bengaluru Mahanagara Palike	Hema
925	Water Supply	Reduce water leakage and wastage	Vivek Nagar, Bangalore, Karnataka, India	There is a BWSSB tap, that overflows ALL DAY / NIGHT, so I am guessing you can imagine how much precious water is wasted!!!! There are no members in my area who are BPL and depend on the tap water (I would rather have the tap moved to a slum / BPL area), which is neither repaired nor maintained. I would urge the authorities to repair the Tap ASAP (As i cant see precious water just flow down the drain) OR remove the tap totally so we can save on some very precious water that someone else can use. 294	Solid waste management	Build dry waste collection centres	Indira Nagar, Bengaluru, Karnataka, India	Provide garbage collectors with better equipment. Better trolleys for transporting garbage, better tools to pick up garbage.	Bruhat Bengaluru Mahanagara Palike	Aravind
405	Solid waste management	Require regular Door to door garbage collection	Jogupalya	In Jogupalya, Halasuru, garbage is thrown recklessly everywhere hence a garbage collection 3/4 wheeler has to come door to door before 8am consistently & not later than this time because most of them go to work. Roads & footpaths have to be swept clean everyday. Drains have to be desilted between January & March & the slabs on the drains have to be properly installed. Clear all the streets of all vendors on pushcarts so that traffic moves smoothly. The mud/sand/dust which collects at the side of the roads have to be cleared weekly which will also take care of the dust problems. The manholes have to be in level of the roads & not protruding like it is all over Jogupalya & even other areas. Put a fence on the main storm water drain in Halasuru, have it cleaned at least once a year, stop people from throwing garbage & debris in it. Have CCTV cameras & someone should monitor it and fine the public heavily.	Bruhat Bengaluru Mahanagara Palike	Avinash
846	Sanitation	Repair of broken storm water drains	Pearl Crescent, Eshwara Layout, 15th Cross Road, Eshwara Layout, Indiranagar, Bengaluru, Karnataka 560038, India	15th cross Eshwara layout gets flooded every time it rains heavily. The basements of the nearby apartments are filled with water. Complained multiple times to the corporators, but nothing has been done as yet.	Bangalore Water Supply and Sewerage Board	Sanjeet Miranda
2180	Water Supply	Regular supply of water	Appareddy Palya Rd, Stage 3, Indiranagar, Bengaluru, Karnataka 560038, India	Corporation water supply has very erratic for the last month. 3152	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	Jogupalya	Fix roads completely such that they won't need a rework for atleast 1 years. Coordinate between multiple departments like electricity and water so that roads wont get dug up. Stop making a very thin layer of tar over pot hole ridden roads that lasts only one year. Stop making divided flyover (like the ones along outer ring road)	Bruhat Bengaluru Mahanagara Palike	Ganesh
4455	Mobility - Roads, Public transport	Tarring of pothole-ridden roads	Jogupalya	Provide pothole free & smooth roads,maintain the roads by keeping it clear of garbage & mud.Clear the Jogupalya main road of vendors, shift the vendors to the BBMP building.	Bruhat Bengaluru Mahanagara Palike	Avinash
4460	Solid waste management	Require regular Door to door garbage collection	Jogupalya	The door to door garbage collection has to be done before 8am, because after this most go to work & hence they start throwing on the streets.The residents can also keep garbage outside their houses in closed containers & then the pourakarmikas can collect it from outside the houses.Install cctv cameras & lay hefty fines on those who throw garbage on the streets.Also make people realise the importance of keeping their area clean to avoid diseases.	Bruhat Bengaluru Mahanagara Palike	
4462	Environment	Plant new tree saplings	Jogupalya	Replace the existing trees with neem trees for cleaner air & for its medicinal properties.The neem trees will also control the mosquito menace.	Bruhat Bengaluru Mahanagara Palike	Avinash
5610	Solid waste management	Require regular Door to door garbage collection	4th Main Rd, Appaiah Garden, Jogupalya, Bengaluru, Karnataka 560008, India	Jogupalya is plagued by rampant garbage throwing by residents on the streets. Door to door garbage collection must be made a must and throwing garbage on the roads should be punished.	Bruhat Bengaluru Mahanagara Palike	Ramanathan S

4022	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	Agaram	Dear Sirs, Please make sure that garbage is collected regularly. As you know better than me, piled-up garbage attracts rats, dogs and flies, thus causing a threat to public health and safety. Roads on which garbage is piled-up also become congested, because of which traffic moves slowly and accidents and take place. Thank you, and warm regards. 1426	Safety and Crime	Install surveillance cameras	Bengaluru, Karnataka 560053, India	"prevention better then cure", lets follow on the same saying. Every street should have cameras at different locations in association with residents or commercial establishment . One camera to be installed facing the roads in buildings so that it can track any un towards incident and police can ask the camera footgae from the respective owners of the camera. It is on similar lines of neighbourhood policing and with the present tech world we can call as "neighbourhood eye" . Many citizens will come forward to install the cameras and government will not have to spend on its installation. But government can give incentive in forms of discounts in electric bill or property tax for establishment which have atleast one working camera installed covering the path of that road or street	Bruhat Bengaluru Mahanagara Palike	manoj mehta

3610	Electricity & Power	Repair of transformers/ electric poles	Bangalore, Karnataka, India	and other big western cities have underground electricity distribution system where transformers, electricity poles and cables, telephone wires are all underground. This should be done is a big metropolitan city like Bangalore too. Undergrounding will help in protecting transformers, cables and poles from damage from environmental factors like rain and heavy winds which cause power cuts and disconnection of telephone lines. Transformers and poles are also an obstruction to pedestrians on footpaths. Having them underground will give space for better and wider footpaths. Often we hear about persons getting electrocuted by electricity cables falling or by transformers and also people might get hurt by transformers bursting. 3663	Solid waste management	Require regular Door to door garbage collection	Bengaluru, Karnataka 560043, India	Living in Sri Laxmi Arcade, the BBMP comes once in 3 weeks or 40 days to collect Garbage from our apartments. WE have been strictly following Waste Segregations (wet and dry) but after a certain point, it gets piled up so much that it has been causing illness around our area. Please have the garbage disposed at the earliest so that we can have a healthy environment. We from our layout try to maintain cleanliness in our surroundings but our own apartments are filled with filth. We don't want to harm others by throwing the waste around. Please assist us. 3698	Sanitation	Construction of sewage lines	Bangalore, Karnataka, India	for Bangalore city.This city requires a regularly well maintained underground accessible sewer tunnels system and underground sewer treatment plants for better sewer management. The water after proper treatment can be used for irrigation purposes in Bangalore and nearby villages. No longer do we want overflowing drains during rains polluting this city and our citizens falling ill, no longer we want open stagnant drains providing breeding ground for mosquitoes and other pests, no longer do we want broken or uncovered drains obstructing the path of a pedestrian on a footpath. The water from open drains and sewers flow into our lakes and pollute them too. We must get rid of obsolete and unsanitary open channels and drains sewer system in a fast growing city like Bangalore. Most global cities like Dubai and western cities have underground vacuum sewer tunnel system/	Bangalore Water Supply and Sewerage Board	Rishab Gupta

4487	Mobility - Roads, Public transport	Construction of new bus shelters	Bangalore, Karnataka, India	implemented in even tier 2 cities like Indore. It's high time that for a tier 1 metropolitan city like Bangalore BRTS is implemented. The Ahmedabad BRTS is best in india and we must beat them. In order to implement BRTS each road must be at least 4 lane , places where roads cannot be widened further underpasses and tunnel roads must be made for busses. For this encroachments must be cleared and roads widened. If the transformers and electricity and telephone poles are made underground then there will be more space for wide roads and wide footpaths. The roads and footpaths must not only be widened but regularly maintained too. The electricity poles can be replaced with European style street lamps for beautification of the city. 355	Solid waste management	Build composting units	Chandra Layout, Attiguppe, Bengaluru, Karnataka, India	Provide each house with colored containers for collecting the wet waste and dry waste separately, the person who collects the waste should dump it in the separate bins, same should be used for composting, need to have a composting unit in our ward. One more suggestion is the provide the individual units of composting to each house & give hands on training to individuals, the units are available in the market e.g. a product from Daily Dump company is very suitable for house hold wet waste management. Distribute the units to all the houses, the usage of the unit which I suggest is very easy and ecofriendly.	Bruhat Bengaluru Mahanagara Palike	Praveen Kumar
790	Solid waste management	Maintain cleanliness of streets (sw)	Attiguppe, Bengaluru, Karnataka, India	Maintainence of the streets is very much needed. Due to these garbage outside on the streets the diseases are spreading very fast.	Bruhat Bengaluru Mahanagara Palike	B.s. Anagha

376	Mobility - Roads, Public transport	Provision for parking	Magadi Chord Rd, Hoshalli Extension, Stage 1, Vijayanagar, Bengaluru, Karnataka 560040, India	The Traffic Police at Vijayanagar has occupied the road to park all the illegal / ceased vehicles in front of their office. This has blocked the movement of vehicles, pedestrians. Appreciate that the Traffic police take out all the illegal / ceased vehicles.	Bruhat Bengaluru Mahanagara Palike	Srikantha
1308	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	1264, 10th Main Rd, SBI Staff Colony, Hoshalli Extension, Stage 1, Vijayanagar, Bengaluru, Karnataka 560040, India	The waste management is very bad at our street, 10th Main Road, Vijayanagar, Bangalore-10. The garbage will only be cleared once there is a mini mountain and the garbage is just dumped at the entrance of the road near bus stop. This also blocks entering to our road. The next problem is our road has not been asphalted for more than 25 years. Please see that the road is given a proper asphaltting.	Bruhat Bengaluru Mahanagara Palike	Srikantha

4209 Mobility - Roads, Public transport	Construction of flyovers/underpass	Chord Rd, Kilkodungalur, RPC Layout, Vijayanagar, Bengaluru, Karnataka 560104, India	Vijayanagar is pathetically connected to Mysore Road. There are two signals at which we needs URGENT flyovers/underpass. A distance of hardly 2-3 Kms take almost about 30 to 45 minutes pathetic minutes and making Mysore Road as deadly fume factory. 1. Pipeline Road and Mysore Road Junction 2. BHEL Junction If this is done all vehicles going towards RR Nagar, Kengeri will have peaceful drive. Also why does TamilNadu buses have to come till Mysore Road Satellite Busstand? Hardly 1 or 2 passengers will be there and these buses cause havoc on infrastructure. Please stop TN buses either at Electronics City or maximum at Shanthinagar itself. Only TN buses going towards Mysore should stop at Mysore Road Satellite Busstand. 2157	Electricity & Power	Repair of transformers/ electric poles	Akash Vihar, 5th Cross Harohalli, Yelahanka, Bengaluru, Karnataka 560064, India	ISRO Layout (Akash Vihar Layout) is around 800 plots layout, which has hardly around 100 houses at present and hence the layout looks little scary by evenings with no street lights in many of the roads. There are poles every where, but the lights have been not well maintained and hence the roads are not illuminated. There are also issues of line sagging and hence touching each other when there is rain and wind.	Bangalore Electricity Supply Company	Shyla
4249	Mobility - Roads, Public transport	Repair of existing footpaths	Doddaballapur Rd, Bengaluru, Karnataka 560064, India	The footpath is in a very bad shape from ananthpura gate to crpf. They have big holes in it and are unusable.	Bruhat Bengaluru Mahanagara Palike	Ajith

34	Solid waste management	Build composting units	6th Cross Rd, Self Financed Society 208 Colony, Yelahanka New Town, Bengaluru, Karnataka 560064, India	There are plenty of spaces around 4th and 5th phase New Town Yelahanka that could accommodate composting units. The BBMP could set these up in a couple of big parks in the area.	Bruhat Bengaluru Mahanagara Palike	Juwairia Mehkri
761	Water Supply	Provision of a new water pipeline	Vinayaka Marg, Vinayak Nagar, Vidyananyapura, Bengaluru, Karnataka 560097, India	There is no Cauvery Water Supply in our area, though BWSSB is right behind us and water lines pass through our areas to supply. The roads have not been tarred since 10 years now next to Sambhram College boys Hostel. The Garbage collection is decent, but since lot of flats by government have come up, the Garbage collection needs to be more aggressive to keep things clean. In front of the Government Slumboard Flats, garbage was also dumped which has now been cutoff, but the old garbage around 7 truckloads needs to be cleared. There are also open manholes, and it poses a threat to small children who play there.	Bangalore Water Supply and Sewerage Board	Santosh Rao

767	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	90, Hesaraghatta Rd, Dr. Chandrappa Layout, Mohammed Sab Palya, Vidyananyapura, Bengaluru, Karnataka 560097, India	The Garbage collection happens on fewer days, some people are being forced throw waste on the road, if Garbage collection is more regular and comprehensive things will improve. Garbage collection is kind of working but requires improvement. Also lot of debris by Government construction is lying near the road. There are open manhole at one point next to the Sambhram College Boys Hostel as well. In open fields opposite to Government Sluboard Flat, there are 7 truckloads of Garbage lying, though no trucks are able to dispose the Garbage anymore, the load dumped should be cleared.	Bruhat Bengaluru Mahanagara Palike	Santosh Rao
769	Public Utilities and services	Construction of public toilets	115, Hesaraghatta Road, Adityanagar, Vidyananyapur	There are lot of Ashraya houses and slum houses around the area. There should be a public toilet so that people dont urinate and defecate in the open	Bruhat Bengaluru Mahanagara Palike	Santosh Rao
771	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	90, Hesaraghatta Rd, Dr. Chandrappa Layout, Mohammed Sab Palya, Vidyananyapura, Bengaluru, Karnataka 560097, India	Road Adjacent to Sambhram College Boys Hostel has not been tarred since 10 years, the construction of the Slum board flats damaged the roads further by dumping left over concrete on the roads, please tar the roads	Bruhat Bengaluru Mahanagara Palike	Santosh Rao
773	Environment	Cleaning and rejuvenation of lakes	Road, Bengaluru, Karnataka 560097, India	The Lake in our area though big has no inlet for water, the lake is drying and dying and people are throwing garbage significantly next to it	Bruhat Bengaluru Mahanagara Palike	Santosh Rao

4436	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	Attur Layout, Yelahanka New Town, Bengaluru, Karnataka, India	There is no waste disposal system. people are throwing wastes in wherever they find empty sites. Allot some waste disposal places/bins per road/street. Strict action is required for those who throw wastes wherever they want and heavy fine for those people. Waste collection by BBMP should be very strict. Elected person of that particular region (ward) should be responsible and accountable in strict implementing this. After all people of that ward elected them thinking for betterment of their ward.	Bruhat Bengaluru Mahanagara Palike	Pradeep Kumar
4885	Solid waste management	Maintain cleanliness of streets (sweeping, removal of debris)	Anantapuram, Bengaluru, Karnataka 560064, India	Garbage collection mechanism and cleanliness needs to be improved in Anantapura main road. Always, there will be a huge pile up of garbage lying in the entrance of 5th Main, Mahalakshmi Layout. Streets/drainage lanes should not be used for dumping garbage. The place looks very shabby. Also, there is no sufficient street lights put on 5th Main. The road will be full dark in the evening with lot of street dogs. Needs immediate attention.	Bruhat Bengaluru Mahanagara Palike	Vasudevamurthy BS
7535	Mobility - Roads, Public transport	Tarring of mud/unpaved roads	Vidyaranyapura, Bengaluru, Karnataka 560097, India	Hi The Road Between Nanjappa Circle to Doddabommsandra Arch (Vidayaranyapura PO) has been blocked for Road Repair works. But the work of 3-4 days is getting extended to 3 months without reasons and BBMP / Area Corporator are bothered about it. Residents of this area has to walk 2 Kms up and 2 Kms down to get bus which is taking lot of time. The persons going for works has getting delayed.	Bruhat Bengaluru Mahanagara Palike	Nagendra Prasad

4459	Sanitation	Maintenance of sewage lines	4th Cross Rd, D Block, Sri Krishna Garden Layout, RR Nagar, Bengaluru, Karnataka 560098, India	we reside in Manchaiah layout, behind Panchasheela polytechnic, even though area is currently thinly populated, with the current drainage line the manholes overflows some times due to blockage and we are getting it cleaned when the problem persists, but it will not be the same scenario tomorrow as the apartments are being constructed and population will definitely increase. On 11.1.2016 the sewage line from BHEL layout has been connected to manchaiah layout (Nisarga layout) without changing the existing drainage pipe size in manchaiah layout., this might create a mess of manhole leakage causing health problems. we the residents request the authorities to look into the matter and change the drainage pipes before we suffer due to manhole leakages.
