Potholes

Pre-Survey App Set-up

1) Download the Android App **'Pothole Agent'** (available as a free download), on your smartphone.

2) Make sure the GPS is turned ON.

**Step 2**
Pre-Survey App Set-up

Switch on the app and place it on your vehicles dashboard. This will ensure optimum readings.

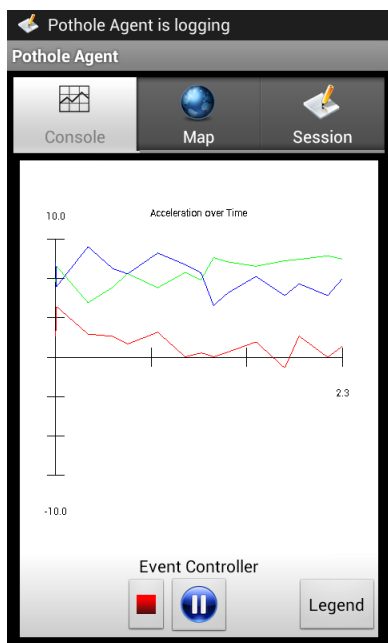

Step 3
During the Survey

1) When starting to drive, tap the **'Record'** button.
2) Every time you drive over a pothole, it will automatically be recorded by the app.

Step 4
During the Survey

As soon as you finish driving along one/multiple selected roads, press the **'Stop'** button

Step 5
Post-Survey Upload

1) Select the **'Session'** tab in the top, right side of your App screen
2) Tap the 'Current Session Events' dropdown box and choose the event saved with the correct date and time.
3) Tap the Email Icon below >> Email the data to yourself >> Save it as a .doc file >> Upload it on the Street Quality Score page.
